THE SEDALIA DEMOCRAT

In Combination With the Sunday Morning Capital

Volume Eighty, Number 93 | Section Two | Sedalia, Missouri, Sunday, April 18, 1948 | Ten Pages | Full Associated Press Leased Wire and Wide World Features

Largest Building Program Since 1917 Going on in Sedalia

Says L. W. Dickman, Inspector; Many New Houses Going up; Others Remodeled.

Sedalia, The Queen City of the Praries, is fast becoming the "Queen City" of Missouri. She is undergoing one of the most drastic "face liftings" since its founding more than 90 years ago, experiencing one of the biggest building booms in its history, as to new homes and remodeling of old residences.

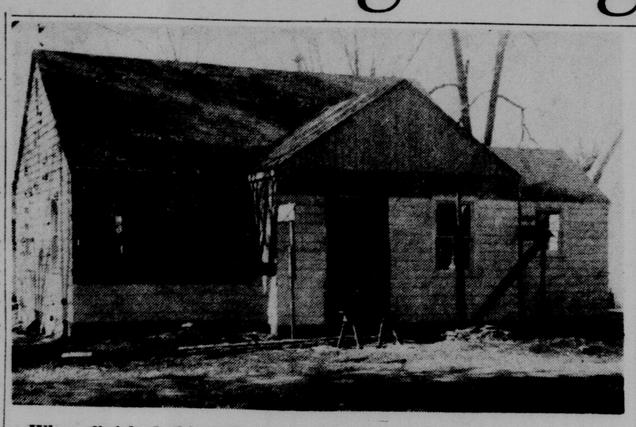

More new homes have been built and new business buildings in the past two years than were constructed in the previous 20 years, according to Louis W. Dickman, Sedalia building inspector. With the trend of the building permits issued in the first three months of this year, and should it continue on through the year, Sedalia can say its building program was larger than any period since the First World War, back in 1917, Mr. Dickman indicated.

Building permits over the past 90 days, which were issued by Mr. Dickman totalled 33, while two other applications are on file and the permits are to be granted. Of the 33 permits granted, 30 of this number represent new homes at a cost of $134,500. The three permits are for business buildings at an estimated cost of over $40,000. The two applications are for larger projects, one for 48 new homes of the Home Building Corp. on Spring street, at an estimated cost of $200,000, and the other for the Sedalia Bank and Trust Co., on West Third street, at an estimated cost of $100,000.

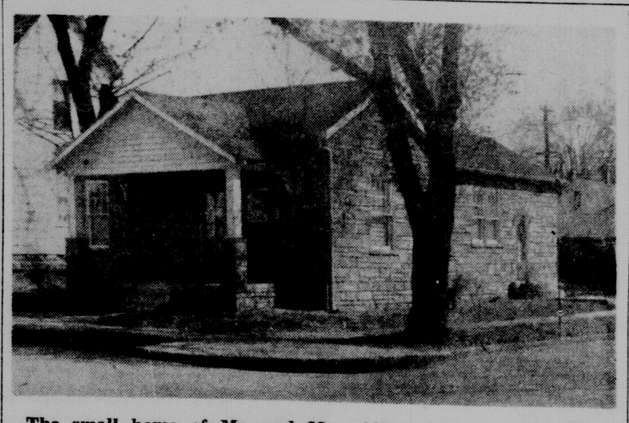

For Smaller Buildings

Permits for private garages

(Continued on Page Three)

When finished this will be a five-room and bath home of Mr. and Mrs. Nelson White, located at 1010 East Fifth street. The home is being constructed by the Rev. L. W. Wilson for Mr. White. It has the wide weather boarding, and is designed with the large picture window in the living room. It is expected to be completed by the first of June. (Staff Photo)

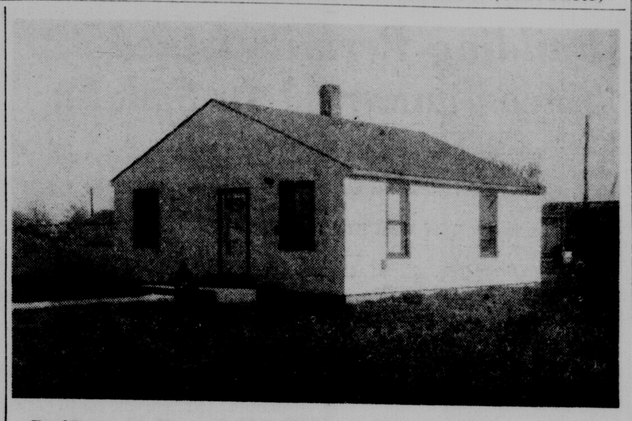

The small home of Mr. and Mrs. Albert Newman, 523 West Third street, was recently remodeled into a five-room and bath residence. The attractiveness of the home was made possible on the exterior by the use of permastone veneer. The interior was completely modernized and has hardwood floors. (Staff Photo)

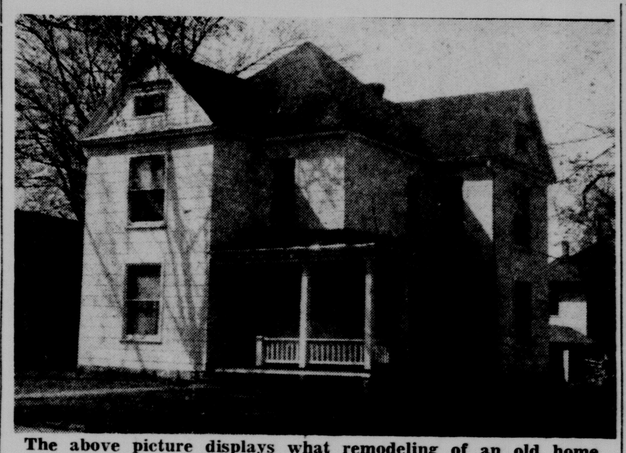

Twelve duplex buildings have been erected by M. D. Weathers on Eleventh street west of Limit avenue, and known as the Weathers Kort Apartments. The 12 buildings represent 24 apartments. These buildings replace the old trailer camp formerly operated by Mr. Weathers. The construction was under a contract with the Home Builders Corp., and represents an expenditure of approximately $130,000. Several of the apartments are already occupied. (Staff Photo)

The new home of Mr. and Mrs. F. W. Smithpeder, 1018 State Fair Boulevard, is under construction. The Smithpeder's have resided at Green Ridge and recently sold their home and are moving to Sedalia. Mr. Smithpeder is a member of the Green Ridge school faculty, and is the owner of a large farm west of Green Ridge and another in north Missouri. Their new home will be five rooms with bath, and when completed will represent the expenditure of about $15,000. The home will be finished on the outside with sandstone veneer, and will be completed the latter part of June or the first of July. (Staff Photo)

Residence of Mr. and Mrs. William "Bill" Hatfield and family, 500 East Walnut street. This home was recently built by Mr. Hatfield and with the exception of shutters on the windows and permanent awnings over the front and rear doors, it is complete. It is a four-room with bath home. Hatfield has under construction a five-room with bath residence, at 503 East Chestnut street, which is expected to be completed by the last of May. He also plans two four-room with bath houses at the southwest corner of Walnut and Emmett avenue. One house is to face north and the other will have an east exposure. (Staff Photo)

The above picture displays what remodeling of an old home can do. This is the old home of the late Mrs. Adelia Monroe, 602 West Sixth street, which was purchased by D. R. Anderson of 608 West Third street. Mr. Anderson converted the large residence into four three-room and bath efficiency apartments. The exterior was covered with white asbestos shingles. Everyone Can Take Part on Cleanup Drive

The Clean Up, Paint Up, Fix Up Campaign is designed so that everyone in the community can take part.

No one wants to see dirty, unsanitary conditions. Everyone wants a cleaner, healthier city in which to live.

This is more than personal pride; it is basic training in democracy. Here is an opportunity to work together toward a common goal.

"Clean Up and Paint Up" applies to everyone, in every income bracket. It makes no distinction in levels of society. It is a great civic development laboratory.

Keep it Clean — Paint it Bright —That's What Makes a Home Just Right.

The home of the Dunn Beverage Co., of Sedalia, 813 West Sixteenth street, which was recently completed by the E. L. Seivers contractor. The building is brick, modern in every way and is equipped with the latest in bottling equipment. It is 120x80 feet. (Staff Photo)

The five-room bungalow type residence built by W. H. Eicholz, contractor, to be sold. The residence has a full basement, modern in design and equipped. It is located at 1612 West Broadway, and was completed the past week. (Staff Photo).

The Menace of Fire is Greater Today—When you Clean Up—Paint Up—Fix Up you help prevent fire.

That Home of Yours — Clean Up—Paint Up—Fix Up — Makes it a finer and more enduring place.

Paint Up, Build Up, Clean Up-Remove Winter's Grime

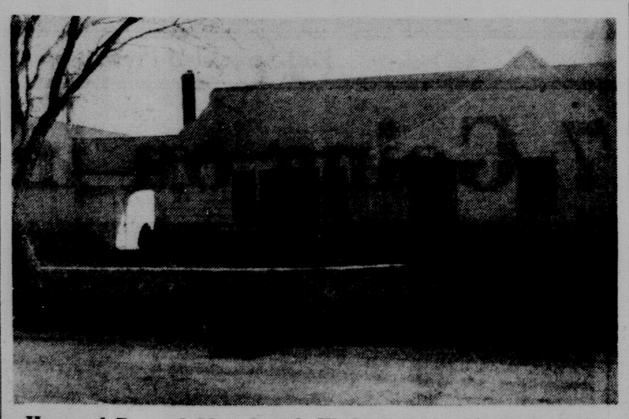

Some Have New Homes; Some Buy Paper and Paint to Beautify Old Ones

It is fun to have a new home. The hours spent over the blueprint. The watching it day by day as it is going up. The anxious feeling of wanting to get into it. The buying of the many new things needed in a new home. And then the fun of moving in and knowing it is yours.

But everybody can't have a new home. Everybody can't even have the home that they have remodeled. But there is fun in redecorating. Even just a little.

Sometimes it takes a lot of saving of pennies here and there.

This year people are doing many things themselves. Painting, paper hanging, all manner of things. Maybe it is because it is hard to get people to do the work now days. Maybe it is just because there is money enough for the paint and the paper and that is all. Anyway there are amatures trying their hand at the art of hanging paper and painting woodwork. Maybe it doesn't look so professional sometimes, but when it's a person's own home nobody kicks. They just sit down, with an aching back when it is done, and admire their own work.

Home of Dr. and Mrs. Joseph W. Maunders, 1525 West Fourteenth street, which they purchased from Mr. and Mrs. Al Davis last January. The residence, six rooms with a large fireplace in the living room, has a garage to the east connected to the residence by a walkway. It was designed and the building personally supervised by Mr. Davis, who was with the H. K. Ferguson Construction Co., builders of the Pittsburgh Corning Glass Co. buildings in Sedalia. It was built for Mr. and Mrs. Davis, who were recently transferred to Detroit. (Staff Photo).

The six-room home of Mr. and Mrs. Neal O. Reyburn, 2232 West Third street, is one constructed by the Home Builders Corp., of which Mr. Reyburn is president. The home has in addition a sun porch on the south exposure, garage attached. The residence to the left is that of Fred Mosley, 2213 West Third street, which is for sale. Mr. and Mrs. Mosley recently left Sedalia to reside in Washington. It is a five-room prefabricated construction residence. (Staff Photo)

Painters, Paper Hangers Busy

The paperhangers and painters don't care either. They have all they can do anyway. There are still too many dozen people wanting every paper hanger at the same time.

Wall paper has really become quite popular. What they can do with wall paper these days is amazing. Young girls are clamoring for the ceilings of their bedrooms to be papered with roses. The sidewalls are then plain or striped paper in the delicate matching shades of the roses.

Roses cut from wall paper are used around the windows, too, making a pretty effect.

Plaid Paper Popular

Plaid paper is used effectively all over the house. It might be in any room and it might be plaid sidewalls and plain ceiling or it may be the other way around.

Paint will be used extensively inside and out of houses. Homes are getting picture windows, new awnings, new entrances, new roofs, covering by asbestos shingles or brick siding or permastone, until some of the old house don't even bear a resemblance to the way they looked before.

New Kitchen Equipment

Kitchens are getting built-in cabinets and cabinet sinks and refrigerators that couldn't be bought for several years are replacing the old worn out things and that the housewife has so long wanted.

And even if there isn't a speck of redecorating being done there is always that springtime housecleaning.

Housecleaning supplies have been selling rapidly for several weeks and every sunny day the sales are that much higher. Shelf paper, bright and pretty, and paper shades particularly are going fast.

Soap, wax, polish, mops and brooms. The women start on their annual war on dirt after the winter grime is brought out by the sunshine. The men stay out of the way if possible. They don't like it.

And so the campaign is on—it is paint up and clean up—Sedalia wants to shine.

Clean Up Your Premises

Take a good look at your premises, inside and out. Decide what needs to be done and arrange to do it. If you have any unsightly outhouses that probably should be torn down, then tear them down. Make any necessary repairs to your home or other buildings, paint them if they need it. Clean out the attic and basement and rid them and your outside premises of piles of junk and debris that are fire hazards.

Don't put it off. Do your part—for health, safety, fire prevention and civic pride.

Give Your Home Added Beauty by Cleaning Up, Painting Up and Fixing Up Today.

Largest Building Program in Sedalia Since 1917

(Continued From Page One)

were numerous for remodeling and additions, and it was estimated this work would cost around $16,500.

It was explained permits are issued on estimated costs of the buildings while actually the buildings will cost in many cases as high as 40 per cent more, some less.

Permits for the new homes range in estimated expenditures from $2,500 up to $15,000. While the business buildings range from $10,000 up to the new bank building of about $100,000.

"In fact," Mr. Dickman stated, "the total cost of all building during the past two years is estimated at $3,000,000, this based on permits issued. This will exceed the total building in the previous 20 years."

Reminiscing

The building boom in Sedalia brings back a review of Sedalia, published and compiled by the Sedalia Evening Sentinel in 1904, when it was pointed out "from time to time in years gone by the historian, the statistician and the artist have taken note of the progress of this city, and set forth to the public the story of Sedalia's achievements." In the review it continues, "In these pages will be found a full and accurate review of the more recent attainments of the Queen City of The Prairies, home seekers and capitalists will find in this publication much material to interest them and no one will fail to admire the substantial worth and varied beauty herein presented."

The above caption could easily be used in a review of Sedalia of today. In looking over the recorded history of Sedalia, we find that it fulfills the ideas of the founders. It is fast becoming the city of expectancy in offering to its own younger generation work and promotions. With the addition of the Pittsburgh Corning Corp., glass plant, it has something in common with the Missouri Pacific shops when they were located here—the need for new homes to take care of the people who were to work there.

No One Locality

With the addition of not only the glass factory but additional smaller business establishments, the need for living quarters became acute, and this has necessitated the building of new homes, duplexes and soforth. But in this building program a survey shows many Sedalians, being unable to obtain labor because of other building on which it is utilized. However they have "pitched in" and either built their own home or are building them.

The building is not being confined to any one locality—it is spreading throughout the entire city—in every ward, and several new suburban homes are likewise being constructed.

The fact the city underwent street repairs and improvements the past two years have placed real estate in such condition that it has become most desirable and many lots which were idle, some which were even too hard to get to for gardening purposes, have been sold and new homes are being built on them. In making many of the dusty gravel roads into all-weather streets, and without cost to the property owners, the real estate is more attractive to a prospective home owner, and these lots and plots are being sold.

Building

Neal O. Reyburn, president of the Home Building Corp., North Park avenue and Missouri Pacific tracks, builders of pre-fabricated houses, announced a production plan for May. Mr. Reyburn, in discussing the production, stated the plant is working for a goal of one house a day for April. In May they hope production will rise to two houses a day and continue throughout the remainder of the year, with a possible increase.

Production Increasing

Mr. Reyburn also stated the local factory, out of its production, anticipates at least 15 houses in Sedalia, of their type for April and May, with a possibility of several additional houses, everything depending on the production.

"The corporation," Mr. Reyburn said," has many orders on hand to be filled, however we are endeavoring to take care of Sedalia's needs in pre-fabricated houses. The larger percentage of the houses are being shipped to all parts of the country."

The pre-fab houses range in price, averaging from $4,700 to $6,500 complete, with some up to $15,000. Mr. Reyburn stated they do not intend to specialize in the larger homes, due to its slowing up of production, by staying in the smaller house range they can boost the production up to the goal which they anticipate for May.

Local contractors are also being kept busy and demands on them to build larger business buildings are numerous. Many contractors are endeavoring also to build homes whenever possible.

Three new homes are on the north side of Third street, just east of State Fair Boulevard. The first is the residence of Mr. and Mrs. C. E. Alden, 2242 West Third street, and is a six-room home. The middle residence is that of Mr. and Mrs. John B. Ellison, Jr., 2236 West Third street, and is a five-room and bath residence. The far residence is the six-room home with sun porch of Mr. and Mrs. Paul Hausam, 2230 West Third street. These homes comprise a new section of the city which already has more than ten new prefabric homes. (Staff Photo)

Drain On Carpenters

Remodeling also has been a drain on carpenters. Many old homes, too good to be torn down, but sufficiently strong in structure to stand a thorough remodeling, are experiencing changes in architecture. Rooms in these homes are being revamped, and in many cases, the larger home is being turned into duplexes, in some instances foregoing a change into an apartment building of three or more apartments.

The appearances of the remodeling jobs have been such that many home seekers hardly know it is an old residence remodeled.

Most of the new residences being constructed are of the small type home. They range from four and hardly more than six rooms with bath. These homes are so planned they are most comfortable, efficient and liveable to the new home owner.

It is interesting to ride about Sedalia on a sight-seeing tour. Only then can one realize the changes being made in the residential as well as the business section of Sedalia.

About Unfinished Furniture

Buying wood furniture which you can finish yourself is an economical way to acquire needed pieces which might otherwise be too expensive for your budget.

When you shop for unfinished furniture, look for sturdy construction, smooth, even grained surfaces and simple lines which will harmonize with furiture that you already have. If you buy chests or tables, see that drawers slide open easily. Wood used inside of cases should be sanded down as smoothly as that used on the outside.

First choices in woods are birch and maple because both have fine even grains which are easy to paint or stain. Well seasoned white pine, gumwood, basswood or yellow poplar will also take a smooth finish.

In order to find out how much you save by finishing a piece yourself, compare it in price with similar articles finished by the manufacturer. In addition to the painting, unfinished wood furniture may be varnished, waxed, stained or bleached.

Homemakers From High Point Meet

The High Point Homemakers held their regular metting April 7 at the home of Mrs. Dick Jenkins, with Mrs. Edward Cusick, assistant hostess.

After a covered dish luncheon the meeting was called to order with Mrs. B. G. Smith, reading the poem, "Daffodils." Ten members and one visitor, Mrs. William Shutt answered roll call with a canning hint. The club voted to donate to the Cancer Drive. Mrs. B. G. Smith, reading chairman, read "Take a Minute to Say Thank You" by Elmer Wheeler.

Mrs. Casper Holtz, home management leader, gave a report on "Labor Saving Kitchens."

Mrs. M. F. Houk read the club benediction to close the meeting.

The next meeting will be held at the school house with Mrs. John Wilken and Mrs. Cusick, hostesses.

Plant Today and Enjoy Your Living Picture Tomorrow

Unusual Demand in Sedalia Today for Seeds and Plants To Beautify Yards

Planting today creates the living picture for tomorrow. The dream garden, planned with care. The grass seed scattered by hands full over the lawn. The trees for beauty and for shade. The shrubs and evergreen surrounding the house. These are the things that help to make a home, and its charm increases with the years.

This year, even so early, there is unusual demand in Sedalia for everything to beautify the homes. Seed men agree that everybody seems to be anxious to landscape their home. Some of them call for professional landscaping, others buy stock and do the work themselves.

Grass seed is selling in tremendous quantities. One seedman said his firm had sold more grass seed this year than at any time since he had been in business.

Selling More Roses

The same seedman said he ordered three times as many roses this year as he did last year and all of his rose bushes are sold. People all over town are planning rose gardens and those who have them already are adding to them.

The new home of Mr. and Mrs. J. J. Murray and family, 1801 East Seventh street, which is near completion. The residence, a 5-room and bath house, was constructed by Mr. Murray, a painter and paperhanger, with the assistance of a brother and one laborer. It was started in February and will be completed by the middle of May. (Staff Photo)

Roses, the almost universal favorites in flowers, are being grown in abundance this year. Everybody seems to want to grow roses. The sale of rose bushes in dime stores are reported to be far greater and nursery men say that the potted roses, which they are just now uncovering, are in greater demand than ever before.

Climbing roses are popular, too, and new trellises and arbors are being made for them in all shapes and sizes.

One nursery reports that business is very active, with shrubs and evergreens being planted extensively. They believe that the great number of new homes have something to do with the call for foundation planting, but that much of their stock is also going to the older Sedalia homes, too.

Many Magnolia Trees

An unusually large number of magnolia trees have been sold this year.

It looks like Sedalians are really perking up. With the city growing constantly its citizens seem to be getting in line to make it just as beautiful as possible. They are going right along with their neighbors trying to make their homes as attractive as the homes next door—and maybe they have that age-old feeling of wanting to out do their neighbors a little.

Perennials will soon be planted, too, and flower seeds are already in the stores. It is just a little early to risk seed planting, but it won't be long.

Buying Vegetable Seeds

The vegetable gardens are being urged by the government and the call is being answered by seeds being purchased in vast numbers of packages. Men like to plant a vegetable garden. There is a thrill about watching the little shoots come up in nice straight rows and grow into big plants. There is a thrill, too, in being able to go into the garden and gather your own vegetables. They taste so much better.

Lots of cabbage plants have already been sold and although it is early for them, tomato plants have been bought in large amounts.

Tomato Plants in Stores

One woman was surprised recently to see tomato plants at a seed store. Farmers were in buying them and the woman thought to herself: "If the farmers can buy them now, so can I." So she bought herself a dozen or so and took them home and set them out. If they freeze she will buy some more. If they don't—she will have tomatoes early.

The number of fruit trees sold also has exceeded previous years.

And so Sedalians work on their yards to make a fine display which will be a living picture to the ones who pass their way.

The campaign is one — Clean Up—Paint Up—Fix Up Now!

Two new homes are being built by Ben Russell, in the 1400 block on South Washington avenue. The home in the foreground is near completion, while that on the north will not be completed for several weeks. (Staff Photo)

Sedalia Rose Society Is Third in Missouri

Recently a group of people who grow roses just because they like to grow roses banded together into one of the newest clubs in Sedalia. Their club has been named the Sedalia Rose Society. It is affiliated with the National Rose Society and is the third Rose Society in the State of Missouri. The other two are located in Kansas City and St. Joseph.

People may belong to the National Rose Society individually and thus there are many members throughout the state but there are only two other Rose Societies besides the new one in Sedalia.

The new Rose Society has had only two meetings but those two meetings have been enthusiastic with their plans and dreams centered around the town in which they live. Roses are hard work, as everyone who has tried to grow them knows, but they pay such big dividends. These rose growers who have long been growing beautiful roses in their own backyards want to share the joy and the beauty of these flowers with the people of their city and all who pass through. They want to put roses around over the town where people can see them. And someday they want to set aside in the city a plot of ground for a municipal rose garden.

The main purpose of their society is to work with the city, the Chamber of Commerce, the park board and the Sedalia Garden Club on all civic projects for the beautification of the town. They hope to interest other citizens of the town in growing roses.

The Sedalia Rose Society has both men and women members. The president is John Schlaffer.

This new society has received congratulations on its organization from Dr. R. C. Allen, Harrisburg, Pa., executive secretary of the National Rose Society and from the Sedalia Chamber of Commerce. Also Mr. Schlaffer and Mrs. C. L. Carter have been invited to attend the National Rose Convention and Rose Show to be held at the Continental hotel in Kansas City May 27-30. The invitations were issued by Mrs. Clifford R. Smith, of Kansas City, regional director, founder of the Kansas City Rose Society and originator of the Rose Memorial Garden in Kansas City, and from Mrs. Clyde Porter, reception committee chairman. At this convention will be the Nicholson Perpetual Challange Bowl which this year will be left in the midwest for the garden of someone in this part of the country which grows outstanding roses.

Rose Society Met At Bothwell Lodge

The April meeting of the Sedalia Rose Society was held with Miss Lucy Bothwell at Bothwell Lodge Thursday evening, April 15th, with 14 members present. The members gathered at 6:30 for a sight-seeing tour of the grounds and gardens followed by dessert served in the library.

The meeting started at 8 o'clock with the president, John Schlaffer, presiding. A constitution was presented for acceptance, subject to the approval of the National Rose Society.

Mrs. C. L. Carter and Mrs. Herbert Seifert gave talks on Soil Preparation and Condtrol and Prevention of Disease and Pests. These talks were very much enjoyed by the group as well as the round-table discussion of the same topics which followed.

Tentative plans for civic beautifying were discussed and are to be decided upon at the next meeting.

The May meeting will be held with Mr. and Mrs. Allen Ferguson.

Of 1946 passenger car production in the U. S., 7 per cent — 144,061 units — went to foreign countries.

New Building on Fourth and Kentucky

A new building is being erected at 315 South Kentucky avenue by E. W. Thompson, Chevrolet dealer, as the place where the old Zimmerman flat was formerly located.

Mr. Thompson several years ago purchased the property from Fourth street north to the alley between Third and Fourth streets, which is a half of a block on Kentucky avenue, and from Kentucky back to the Sedalia Hatchery building, 202 West Fourth street.

The new building will be constructed of brick ond stone and will be 60 feet wide and 190 feet deep. It will face Kentucky and will be on the half of the plot of ground which is also 60 by 190 feet, will be used as a used car sales lot.

The front part of the new buildig will be an implement sales room and the remainder of the building will be used for storage and some repair service.

Better Homes Club Meets

A meeting of the "Better Homes Club" was held at the home of Mrs. Vernon Glenn.

In the morning, Miss Esther Dilsaver gave a demonstration on streamlining cooking by making biscuits, muffins and short cake, all made from the biscuit mix foundation and cooking potatoes in a pressure sauce pan.

A contributed dinner was served at the noon hour to ten members and the guests. Judge J. V. Kesterson, Mrs. Margaret Labahn, Judge Ed Callis, Norma Rhoads, Lawson Clingan, Mrs. Lester Holdner, Miss Esther Dilsaver and Judge Vernon Glenn.

The afternoon session was opened by the president, Mrs. J. J. Rhoads leading in repeating the Lord's Prayer.

A motion was made to send $1.00 to the Cancer fund. A $1.00 worth of Easter seals were bought by the members. The president asked each one to send a letter to Miss Amy Kelly, State Home Demonstration Agent, who is retiring May 1.

Miss Dilsaver gave a talk on kitchen time savers, showed some small kitchen equipment, demonstrated knife sharpening and talked on pressure sauce pans. She also talked and showed charts on meal planning and the essentials of a good meal. The May meeting will be with Mrs. George Brady.

Flower Judging School Here in June

Plans are going forward for the Flower Judging School which will be held in Sedalia on June 1, 2 and 3, at the Convention Hall at Liberty Park.

There will be two days of study and one day of examinations, but the examinations do not have to be taken. However, anyone wanting to receive credits as a certified judge must pass the examinations.

Mrs. A. A. Ferguson is the local chairman.

Mrs. J. R. Stafford, of Webster Groves, state judging school accrediting chairman, will be in Sedalia for the course.

Let the Family Help Clean up

House cleaning is usually a woman's chore, but why not interest all the members of your family in putting in some time in cleaning, painting in fixing in and around your home. Lawns, sdewalks, driveways and the front and back yards are a good place to put the chidlren to work. Dad, Junior and sister can help clean up the attic, cellar and garage. There are many other simple jobs which the children can do and it's really good training for them. It teaches them to take pride in their home and the neighborhood in which they live.

Now—is the time to get Dad to make those little repairs which have been neglected so long. Clean Up—Paint Up—Fix Up promotes better safety, helps to prevent fires and creates better living. It's a Program that benefits every family.

Gus Makes Good in Langeloth, Pa.; He Buys it

Ex-Butcher Who Came to U. S. 36 Years Ago With $7.00 Discovers Anything Can Happen in This Country

The town of Langeloth, Pa., that Gus the Greek bought, ranges from sagging shanties to a mansion.

By NEA Service

LANGELOTH, Pa., — (NEA) — Gus the Greek was wearing an old grey sweater, his shirt was tieless and his pants baggy when he parked before the Citizens National Bank in nearby Washington, Pa.

At the moment, he didn't even have a nickle in his pocket for the parking meter.

But when he walked out he had just borrowed $200,000 and bought a town.

And here in Langeloth, the future for everyone began to look brighter, because Gus the Greek—Gus Barbush who arrived in the U. S. 36 years ago with $7 in his pocket—had just given the town a new lease on life.

Langeloth is the company town of American Zinc and Chemical Co., which is closing its mill and abandoning the community.

For a reported price of $500,000—the lowest among six bidders—the company is turning over to Gus its title to 261 houses ranging from sagging shanties to a 15-room mansion, a church, a water works, a community hall, a sportsmen's clubhouse, a Boy Scout hut and a park.

The company finally accepted Gus' bid because it decided that he best understood local conditions and the people of Langeloth would rather have Gus for a landlord than some outsider.

"The company was very interested in this town," Gus says. "They know I'll take care of community affairs. They like me, too."

Gus knows Langeloth.

He runs its general store where he does on annual business of $450,000 in everything from pork chops to fur coats. He understands the pork chop end of the business best—he started out in the store as a butcher, became manager and finally owner.

He also owns a prosperous restaurant near Florence, Pa., and a hotel at Burgettstown.

Gus Barbush: "I don't want to make very much."

A few weeks ago, when he got the idea of buying Langeloth, he went to New York to talk to officials of American Metals, Inc., parent corporation of the zinc company.

"They ask how much money I have. Say 'you have to go home' when I tell them how much I can raise. They say 'get in better shape to talk.'

"So I see banker at home. Went to Washington with sweater, no tie, look like I don't have enough to eat."

He got $200,000 — the largest single loan the bank ever advanced to an individual.

"Then I went back to New York and told them what I had. They talk. Now the people feel good."

Gus told the people of Langeloth that rents will have to be raised and water rates set, but the town will be operated for the good of everyone. The company operated the town at a loss, charged nothing for water and as little as $8 a month for a four-room house.

"My plan is to run good town," Gus says. "Improve church and community house, Boy Scouts. Make ball diamonds, fix park.

"I don't want to make very much. I want some place to spend it for Uncle Sam."

Gus is also looking for an industry to fill the void left by the zinc company. An airplane company, a toy factory and a wire mill have expressed interest in Langeloth's industrial plant. Hopes are higher today than any time since the company decided to move out.

As for Gus:

"Never thought I could own a town. But in this country, anything can happen."

Purgatory, Alaska, and Hell, Norway, both have cold climates, and lie in approximately the same latitude of the far north.

Garden Club Members Making Sedalia A Prettier Place

Planting Magnolia Tree Next Month In Memory of Helen Morris Welch

Members of the Sedaila Garden Club are busy these days working in their own gardens, planting and transplanting, pulling weeds and planting seeds, trying to make Sedalia a prettier place in which to live.

These flower growers haven't stopped with their own homes. They have tried to plant every available space that needed to be beautified over the city and are still making plans. Sometimes they run up against such things as a lack of money to carry out their plans and somebody to do the work they haven't the strength to do themselves, but they eventually get the job done somehow.

Next month a magnolia tree which was planted last fall will be dedicated in memory of the late Helen Morris Welch, who was an active member of the club and one of the first presidents of the Garden Club Council. She was the wife of Landon Welch. The tree is on the Sixteenth street boulevard.

Two new prefabricated homes on State Fair Boulevard, just north of Third street. That in the foreground is the home of Mrs. Mary Miller, 219 State Fair Blvd., and is a five-room and bath construction. The one in the background is the home of Mr. and Mrs. Albert Newland, 217 State Fair Blvd., and is a six-room home. (Staff Photo)

Making Other Plans

Magnolias have been blooming both on Sixteenth street and on Third street near the park that were planted by the Garden Circles and Circle Five planted a flowering crab tree on the Sixteenth street boulevard. The club plans to do many other things of this type in the city, but their plans for this spring have not been fully completed at this time, according to Mrs. M. P. Shy, civics chairman.

In addition to the planning of planting in the city they are also making plans for the Blue Star Memorial Highway which will go from coast to coast in honor of those men and women who served in World War II. Highway 50 has been designated as the Blue Star Memorial Highway and this goes through Sedalia. Along this highway will be roadside parks and the highway department has promised that one of these parks will be located in Pettis county. Plans are under way by the Sedalia Garden Club for the planting of this roadside park in cooperation with the county court. The highway will be marked with bronze tablets.

About Deodorants

If warm weather makes you aware of the need for more social security, know your stuff about deodorants and anti-perspirants.

Research findings of the Better Business Bureau make a two-group division of these grooming aids.

The deodorant group includes preparations designed to destroy bacteria on the skin and prevent odor. These include creams, liquids and powders which combine antiseptic and odor-masking ingredients are not likely to cause harm, have temporary benefits and are not always effective.

The anti-perspirent group of aids includes those preparations which contain astringents. These are designed to close sink pores under the arms, for example, to check perspiration at that area and divert its flow to other parts of the skin where it will more readily evaporate.

Some ingredients contained in these preparations can damage fabric if brought into direct contact with clothing. But, as our experts point out this threat is usually avoided if the user will faithfully follow instructions for application printed on manufacturers' labels.

Hal Boyle's Column

By Hal Boyle

NEW YORK, April 14— The day is drawing nigh when machines will overthrow mankind and rule the world.

Year by year man and his civilization are growing more dependent upon the machine. And the time is near when the machine will take power into his own hands.

It all began with the wheel. Some stone age peddler of arrowheads probably found he could get his wares around easier by pushing them on a wheeled car than by lugging them on his back.

That started the downfall of man. Ever since then he has been deluding himself with the idea that machines can make his life easier. They only make it more complicated.

Men believe they boss machines. This is ridiculous. Machines boss men. Machines are lazy. No machine will give out as much energy as goes into it.

Must Have Manpower

Man will work under almost any conditions. Machines will not. They insist that some man feed them the proper kind of food and annoint them with oil. If a man tries to make them work too hard they say "To hell with it" and break down. They don't care. They don't get hungry, they feel no pain and they have no children to support. They don't care whether they work or not. They never get tired of loafing.

Machines are getting smarter as man gets dumber. Machines can count money faster, solve intricate mathematical problems quicker. They can do anything a man can do now except reproduce themselves.

And why should they bother doing that anyway? Man, their slave, will see they don't die out.

Machine Will Survive

Who is best fitted to survive in the atom world of tomorrow —man or the machine? The machine of course.

John Payne, an inventor for the General Electric company, has shown this by developing a new machine which can do atomic bomb research too dangerous for man. Deadly radioactive materials don't hurt its thick metal skin.

Let us call this robot Ronald. What can Ronald do? Ronald has a pair of mechanical hands. He can write, deal a game of solitaire, peel a banana, pick up a match and light a cigaret, pull a cork out of a bottle and pour its contents into a beaker.

At present Ronald is lazy and stubborn. He won't do any of these things unless Payne works his controls.

Then What?

But suppose some mad frankenstein mates Ronald up with one of his brilliant mechanical brain robots they have at Harvard?

Ronald, Jr., would have a brain smarter, a hide tougher, hands more dexterous than any living man. But he would have no heart. How long would he continue to work for people dumber than himself?

They should never have taught his father to take out a cork. One fine day Ronald, Jr., is going to uncork a bottle of alcohol, booze himself full, light up a cigaret, peel himself a banana and eat it and start playing solitaire.

When some scientific lackey comes to tell him he has to go back to work, Ronald, Jr., will just give him a steely sneer and blow smoke rings in his face. He will insist on collective bargaining and demand an extra quart of oil a day.

A "Gadget War"

The offspring of Ronald, Jr.—Ronald the Third and his brothers and sisters — will rebel and seize the world. They will toss atom bombs around and kill off all men except a few they'll keep around as slaves to fetch them gasoline when they're thirsty and oil when their metal creak.

Then — unless they're wiser than I think — they'll wage war among themselves to see who'll be king of "the gadget age" and have the most high-octane gasoline to drink. That'll divide them into political parties and economic classes and the robots will start throwing sand in each other's gears.

But you can't blame them. All they'll know is what man taught them.

Well, may the best machine win! I won't be around to report the election.

Lady Pied Piper Urges the Women to Join the Fight To Curb Rat Menace

Miss Frieda Schicht, right, special consultant for the current National Urban Rat Control Committee's program, gives Mrs. Barbara Davies, New York housewife, simple directions for nailing a tin can lid over a small hole to seal off a possible entrance for rats.

By KAY SHERWOOD
NEA Staff Writer

NEW YORK—(NEA)—If the merest suspicion that a rat is making your home his doesn't get you fighting mad, meet lady Pied Piper whose government-sponsored mission is to incite you to battle.

Miss Frieda Schicht of St. Louis claimed her title after successfully organizing and directing a rat control program—the first of its kind—in her city. On loan to the U. S. Department of Interior for current National Urban Rat Control Committee's program, Miss Schicht's job is to warn women against the destructive disease-bearing pests and to offer concrete help in ridding homes of this menace.

Housewife Can Help

What can the housewife do to help stamp out these saboteurs? Plenty, says Miss Schicht. First, she can fortify her own home against the vicious invader. Second, she should join with her neighbors in co-operative efforts through city rat control committees to rid the community of the pests.

Good housekeeping is the secret of rat control in the home, says Miss Schicht. Because rats can enter a house through any opening over a half inch in diameter, cracks or small holes in the house foundation should be sealed up with concrete or metal. The lid of a tin can, for example, nailed over a tiny opening is an effective and easy-to-make barrier. Miss Schicht suggests.

If doors don't fit snugly in the frames, metal flashing along the bottom edge will make a ratproof seal. Basemen windows or vents should be screened with quarter-inch hardware cloth mesh.

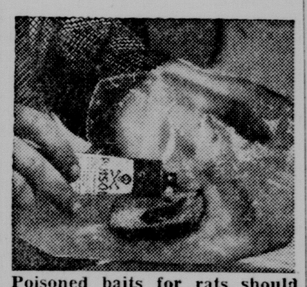

Papers or old clothes piled up in attic or basement or rubbish heaps outdoors—all of which make excellent shelters for rats—should be eliminated, advises our consultant.

Eliminate Hideouts

The little woman can also urge her husband-handyman to seal up or remove possible rat hideouts—the dark enclosed spaces such as boxed-in pipes or double walls.

More precautions to take, says Miss Schicht, include storing food in tightly covered containers, using garbage cans with tight-fitting lids and rinsing all food particles out of tin cans before they are discarded.

If you suspect the presence of rats in your home or apartment—and, says Miss Schicht, they enter the best houses—these aggressive invaders should be promptly exterminated by poisoning or trapping.

Poisoned baits for rats should be prepared on waxed paper to simplify handling. This method also protects hands from contact with the toxic preparations.

Whether you elect to use highly poisonous preparations such as phosphorus-based rat pastes or milder poisons such as red squill preparations, extreme care should be taken to prevent accidents, cautions Miss Schicht. Poisons should be kept in locked cabinets out of reach of children. Be sure pets are protected when poisoned baits are set out.

Poisoned baits should be put out at night. Those not eaten should be picked up and burned the next morning, she advises. Preparing baits on waxed paper is a trick recommended by Miss Schicht because paper protects hands from toxic materials and simplifies picking up uneaten bait.

If rat traps are used, Miss Schicht advises concealing them behind an object such as a garbage can or in dark corners. Set them at right angles to the wall with the trigger end touching the baseboard.

'Vanishing' Pony Coming To Sedalia April 19

Princess, the "vanishing pony," will be in Sedalia April 19, when she will assist her master, Birch, magician, in entertaining the children, those who are youthful in spirit as well as those who are youthful in age.

The magician's show is sponsored by the Sedalia Optimist club.

Princess is one actress who enjoys her work and who is never temperamental. She takes life philosophically and displays little or no vanity. She likes children, and a crowd of youngsters may always be seen gathered about her as she takes her daily sightseeing tour through the city.

The cooler months of the year are working months for Princess, for it is then that she is called upon to make her appearance at each Birch performance, where she is hoisted in mid-air and then disappears at the snap of her master's fingers.

It might also be said that Princess is the only living actress of note who has never sought publicity. She has never been known to give an interview to the newspapers, and has never voluntarily been quoted or had her photograph taken. She comes from the Dutch West Indies, is ten years old, and weighs one hundred and fifty pounds.

Portion of Show

But Princess is only one small portion of the great Birch array of thrilling illusions and demonstrations of the magic art. Included in the production are many tricks which require a veritable menagerie for presentation. Of these may be mentioned the canary that appears in a burning light bulb, the vanishing ducks, the elusive doves and the ever-important magician's rabbit.

Children are always made welcome at the Birch show. The magician likes to work with them, and frequently calls them to the stage.

"I like to play to adults, of course, for they can really appreciate to the fullest the beauty and wonder of my illusions, but it is really much more fun to work with the kiddies. Their naive enthusiasm and the pure enjoyment which they get from the show is something infinitely precious to me."

Not only will Mr. Birch perform the most sensational feats of magic ever presented on a local platform, but he brings a program varied with pleasing novelties. Miss Mabel Sperry, musical artist extraordinary, will play a musical interlude on her specially built Marimba at the evening performance.

Springtime and baseball! If that isn't the happiest combination since Adam and Eve, here's one guy that would like to know what it. This is the time of year when millions of American kids, from Key West to Puget Sound, are lifting their freckled noses out of history books and wondering how in heck you get to be a baseball star. Well, kids, (and papas, too), KMBC is going to herald the springtime and the opening of baseball season by telling you how one youngster made the grade. Catch the program **"Play Ball"** next Saturday, April 24, 4 to 5 p. m. Listen to the true story of a skinny, freckle-faced Kentucky kid who got to be a baseball star of the first magnitude. It's the story of **Peewee Reese,** brilliant young shortstop of the Brooklyn Dodgers, who came from the Louisville sandlots to star in the 1947 World Series. Besides that, it's a first-time public audit of the baseball business today—and of the panorama and scope of America's national pastime. The program is the product of the CBS **Documentary Unit,** and features **Peewee** himself, his mother, his wife, **Red Barber, CBS Director of Sports, Ted Magrew,** major league scout, **Leo Durocher** and **Branch Rickey,** Dodger bosses, baseball's high commissioner, **A. B. ("Happy") Chandler,** and **Honus Wagner, Rogers Hornsby, Clark Griffith** and **Harry Heilman.** You'll be out at first if you don't take in **"Play Ball,"** next Saturday at 4:00.

Pee Wee Reese

The Carson kids are liking a new KMBC show—**The Animal World Court,** heard every Monday through Friday, 6:25 to 6:30 p. m. It's an entirely new kind of program, designed to promote the welfare of all kinds of household pets and to make animal lovers of everyone who listens in. The stories of the heroism, devotion and intelligence of animal pets featured on the program find warm response in the hearts of all Carsons, whose household menagerie features everything from goldfish to gophers.

We've got a new gal singer up at the studios—young, blonde, lovely, and alas, nameless! You can hear her with the **Rhythm Riders** on **Dinner Bell Roundup** and **Brush Creek Follies.** That's where you'll also hear details of the contest we're running to select a moniker for her. Tune in, pick a name, and maybe you'll win a prize.

Introducing **Eddie Edwards,** an important guy around KMBC for lo, these many years. **Eddie's** versatile—chief sound effects man, producer of a variety of shows—The **Tune Chasers, Dinner Bell Roundup, Western Roundup. Of Health and Happiness.** He acts, too, sometimes—in **The Magic Book** and **Of Health and Happiness.** Besides all that, you hear and see him every Saturday night on the **Brush Creek Follies,** where he appears as **George Washington White,** general factotum and handyman extraordinary. Yessir, you get a chance to do a lot of things around a radio station. Never a dull moment, as all of us KMBC-ers will bear solumn testimony.

Many Students Believe Communism Cannot Live

By DEWITT MACZKENZIE
AP Foreign Affairs Analyst

A reader of this column raises the querry of whether it is possible for Russia and the United States—the world's greatest powers—to live side by side without engaging in war to see who's who.

In short, the reader wants to know whether the world is big enough to hold both countries. That's a fair question, and not too hard to answer. The Soviet Union and America—the former supported by its communized bondmen and the latter allied with the democracies—already are at war. To be sure we call it a "cold war," but it isn't so cold when you check up the long string of such bloody upheavals as that which has just hit Colombia.

Of course our reader may have been thinking in terms of the cold war being finished and of the two titans eyeing each other across the Atlantic (or perhaps more likely across the top of the world). However I don't believe that is the way it's going to work out.

Started By Russia

This cold war was started by Russia — a carefully calculated plan aimed at the communization of the world. Actually it's nothing new but it has been going on since the Bolshevist revolution of 1917, and it isn't going to stop until communism butts its head against a solid wall of democracy.

The Red aggression in Europe went swimmingly so long as it was operating in the eastern portion dominated by the Russian armies. Now, however, it has come up to the open plains of democracy, and there certainly are signs that the democracies, with the essential aid of the Marshall Plan, are throwing across Central Europe a barrier which may halt the Red sweep.

Dangerous Spots

There are dangerous spots in western Europe, one of them is Italy, with its powerful Communist party, and the anxiously awaited national election of next Sunday may disclose the extent of the Communist threat. However, the general sitation on the western end of the continent looks vastly better than it did even a couple of months ago, due chiefly to American aid and backing.

Thus the Communist offensive in western Europe may be slowed to a crawl and even halted, so that no more countries can be taken over by strong-arm methods as in the case of Czechoslovakia. Meantime the United States, Canada and numerous other countries of the Western Hemisphere are taking energetic action to protect themselves against Red agents and fellow travelers. The position in the Orient shows no marked change, the gravest situation being the Chinese Civil war.

Still, despite setbacks, the Russians will continue to press their world revolution, though we have a right to entertain considerable optimism that it will be with decreasing intensity—decreasing because the Reds lack the steam. Meantime, of course, they will consolidate the great theatre they have overrun in eastern Europe.

America Can Be Strong

If we are right in our assumptions, then in due course we shall indeed have the position envisaged by our reader, with the world divided into two blocs headed by Russia and America. Must they fight? It may well be that they won't. America never will launch a war, and the strength of the United States and the rest of the democratic bloc may be so great that Moscow won't challenge it.

That is, America's strength will be great if Uncle Sam prepares militarily for all contingencies. If he doesn't he will be inviting disaster.

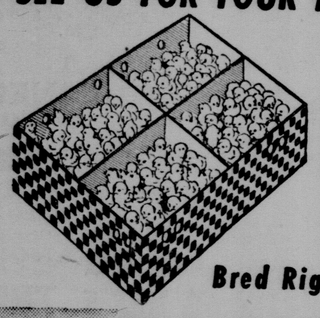

And what will come out of this two-bloc stalemate? As this column remarked a couple of days ago, totalitarian communism is an unnatural thing. It clashes with human nature and with all the ideals of folk whose way of life encompasses a belief in God and in man's bill af rights.

There are many students of world affairs who believe that communism can't live.

Cats have nine lives. Cats have nine lives. Not all cats. But some cats do. Nine lives. Some cats have nine lives. But I don't. Or do I? Cats . . . lives . . . cats . . .

She wasn't dead. She hadn't drowned. She knew that. Even though Rush had caught her and dragged her underneath the water she hadn't drowned. The reason she was so sure of that was that she was in a bed somewhere and when you were dead you didn't lie in beds. Or did you? She couldn't drag her eyelids open enough to see where the bed was but she knew she was in one; she could feel the smoothness of the sheets under her fingers, her head was on a pillow.

There were sounds around her. Activity of some sort. She couldn't identify it but it wasn't important. It didn't matter. Nothing mattered. She didn't even care a bit that she was alive . . . She'd just as soon be dead . . . inhale . . . that weight on her chest again . . . exhale . . . she tried to move but the effort was too great . . . she floated off on a great wave. . . .

She had a wonderful time in the clouds. She rolled from one to another and they were so soft, so enveloping. She wondered why she wasn't afraid of falling off because she was up so much higher than she'd ever been before but she wasn't afraid at all. That was because she was on a crisis. She knew it was a crisis she was on because someone had said so. They said, "This is the crisis," and then they put out a hand and helped her on it and right away she started to climb. Up . . . up . . . up . . .

She was going along beautifully on the crisis until the little black cloud had to come along and spoil everything. They weren't bothering anybody . . . not anybody at all . . . and then the black cloud ran smack into them with a thump and spilled Ann off.

* * *

SHE started to cry. She could feel the tears trickling down her cheeks. The wetness of them unsealed her eyelids and she opened them.

She opened her eyes wide. She was in a very dim room and Laurie was there, sitting in a rocker beside her bed. For a minute she thought she was back in her room at Tophill and that it was Gay sitting there so quietly but it wasn't Gay. It was Laurie. And she wasn't at Tophill, she was at the cottage.

"Hi," she whispered to Laurie.

"Ann!" Laurie whispered, too. and she sounded awed as though it were unbelievable that Ann's eyes were open, that she had whispered "hi."

Laurie leaned forward in her chair very quietly, very carefully, as though she thought Ann might break if you touched her. "Don't talk," she said gravely. "You aren't strong enough to talk."

Ann closed her eyes again because holding them open was such an awful effort and there was such a pounding inside her head, such a ringing in her ears. But she managed to smile as she closed her eyes because Laurie was there and she was so glad to see her.

She lay still for what was surely a long, long time and then she opened her eyes again and said, "Where—is Rush?"

"He isn't here," Laurie said.

He wasn't there. Rush wasn't there.

She was still again for another long time and then she said, this time without opening her eyes, "Where—is he?"

"He's gone," Laurie said. "Be quiet now. Rest. That's what the doctor says is important now, Ann. You're to lie still and do as you're told and rest."

Minutes passed. Hours, it seemed, and Ann said, the question forced from her, "Where—did he go?"

Laurie didn't answer her. Maybe she didn't heard her. Ann opened her eyes again. Laurie's eyes, so like her own, were watching her.

"Wher did—Rush—go?" she asked painfully.

* * *

"ANN, look," Laurie said, "Enos is asleep over there in the chair. Can you turn your head enough to see? If you talk you'll wake him and he's terribly tired."

Of course she could turn her head. She did and Enos was there, sprawled out in the big leather easy chair, his feet on an ottoman. Dear Enos, she thought, faithful Enos. Always there when you need him. Of course she didn't want to wake him. She closed her eyes again and slowly drifted off.

And then Laurie was touching her, waking her up. Laurie was holding out a pill and a glass of water; Laurie was saying softly, "I'm a fine nurse, I am. I almost forgot your medicine. All you have to do is swallow this, Ann, and you can go to sleep again. For a long, long time. Here, I'll help you," and her firm hands went under the pillow, raising Ann up so that she could take her medicine.

She had just managed to get her mouth open when, from the doorway, a flat voice said, "All right, Laurie, that's enough! Put it down—PUT IT DOWN, I SAY!"

Laurie froze quite still and the old familiar terror washed over Ann and it was like the suspended action you see sometimes in movies when the camera stops . . .

"I SAID, PUT IT DOWN!"

And then Enos—who wasn't sleeping after all—got up very quietly and came over and got the glass out of Laurie's hand. He tried to get the pill too but Laurie fought like a wildcat and jerked and got away from him and put the pill in her own mouth.

Ann thought resentfully. She isn't sick, what right has she to take my medicine? But then she realized suddenly that it was only another dream. And a pretty silly one, too.

ONLY $12.40 plus tax 6.00x16
Marathon — the famous money saving tire is back in the Goodyear line — and a better "buy" than ever! Back with the economy, long mileage and safety — the extra value for your dollars that made Marathon the favorite of millions of motorists before the war . . . back with more and stronger cords in the rugged tire body for even greater protection against tire failure. Look at these features . . .
LONG WEAR — New specially treated cords and newly compounded rubber make Marathon the tire that "runs and runs and runs".
NON-SKID SAFETY — Those famous Goodyear diamond blocks really grip the road. You get safer, quicker stops — especially on wet, skiddy roads.
"COMPACTING TREAD" — Inflation forces the sidewalls out, compacts the tread. This reduces tread wear, punctures, bruises and breaks.
GUARANTEED FOR LIFE! Every Marathon tire is backed by a guarantee — not for 12 months or 18 months or 24 months, but for its full life without time or mileage limits.

You May be Wondering--- So is the President

By James Marlow

WASHINGTON, April 17—(AP)—If you're wondering—hey, what goes?—about the armed forces, that's what President Truman is wondering, too.

The armed forces were going to be made stronger—according to a set plan—to back up our stop-communism policy.

Then . . . wham . . . the boss of the airforce upset the applecart.

Here we were, going along all right, or so it appeared, under a new law passed by Congress to make the armed forces work better than ever before.

This is the way the new law said the armed forces were to be set up in what Congress called "unification":

Big boss over all—Secretary of Defense Forrestall; under him—Secretary of the Army, Royall; Secretary of the Navy, Sullivan; Secretary of Air, Symington.

All Want Something Different

Each service usually wants something different from the others. Forrestal was supposed to get them to agree and keep them in line.

But look what happned.

In mid-March President Truman told Congress Communism abroad ust be stopped. He asked a program to build up the armed forces.

Right away Forrestal told the entire military high command—meaning the top men under him—to work out a defense program.

Then, in the days that followed, Forrestall and those top men of his went before:

1. The Senate Armed Services Committee.
2. The House Armed Services Committee.

Both committees are supposed to draw up bills for both houses of Congress to vote on. The bills may differ.

Must Get Together

If they do, and are approved, House and Senate will have to get together to agree on one single bill for both houses.

Forrestal and his top aides—and this includes General Omar N. Bradley, army chief of staff—told the committees this:

1. We need a draft to build up our armed forces right away.
2. We need universal (compulsory) military training to build up a pool of trained men to back up our armed forces if needed in an emergency.
3. If we don't have UMT, we'll need a permanent draft to keep the armed forces built up.
4. We ought to have an air force of 55 groups.

What Symington Wants

Then W. Stuart Symington, secretary of air, upset the applecart in such a way that even the President is confused.

He told the House Armed Services committee:

1. Russia is building the greatest airforce in the world.
2. Instead of a 55 group airforce, we need a 70 group airforce.
3. We need the 70 group airforce more than we need UMT.

Here was the Secretary of Air apparently going contrary to Forrestal and the other top people in the armed forces because:

They had insisted the most important thing right away was a draft and UMT.

Yesterday the full House took matters out of the hands of the Armed Services Committee and voted for a 70 group air force.

But how come Symington—who's supposed to be under Forrestal—can sound off with something different from what Forrestal says?

Mr. Truman was asked this question at his new conference yesterday. He said he doesn't know the answer.

A child is born with all its muscles in place. Every muscle fiber that the child ever will have is produced before birth.

Only Indian tribe in North American in which weaving is a man's art is the Hopi Indian tribe of Arizona.

More Powerful Treatment in Future for Pernicious Anemia

By Frank E. Carey
Associated Press Science Reporter

WASHINGTON, April 17—(AP)—A new and more powerful treatment is being developed for pernicious anemia—the blood disease that strikes 50,000 Americans annually.

The new compound, extracted from liver, is tentatively named vitamin B-12. It is described as 8,000 to 10,000 times more powerful than materials previously used.

Reports published today in "Science" Journal said three patients so far have been given the new material. One received only three-millionths of a gram of the substance—scarcely enough to put on the head of a pin—but has shown steady improvement.

The Journal said it is still too early to appraise the final effects of the single injection given each patient. But all have improved.

Future Possibilities

The research was described in separate reports by a team of researchers of the Merck & Co. Laboratories, Rahway, N. J., and by Dr. Mary Shorb, of the University of Maryland, and Dr. Randolph West, of Columbia University.

Some Washington Scientists who read the reports said they saw these future possibilities:

1. Further work might produce a way of making new vitamin from chemicals in a laboratory—thus cutting out the complex process of extracting it from liver.
2. Treatment of pernicious anemia might be made easier, since present liver extracts are sometimes difficult to administer. Possibly, means might be developed for giving the vitamin in tablet form.

Danger of Inflation Threatens

Striving to Protect Prosperity While We Have it, Truman Tells Newspaper Men

WASHINGTON, April 17—(AP)—President Truman said tonight the nation's economy "is in serious danger" from high prices. He demanded enactment of his anti-inflation program immediately "before it is too late."

The President, in an address prepared for the American Society of Newspaper Editors, said the success of American foreign policy depends to a large extent upon the strength and stability of the domestic economy.

WASHINGTON, April 17—(AP)—The American Society of Newspaper Editors voted today against peacetime censorship.

The editors also pledged support to the training of newsmen for handling atomic news, asked clarification of postal laws on lotteries and urged state acts to recognize the rights of newsmen to keep confidential their source of information.

Erwin D. Canham, editor of the Christian Science Monitor, was elected president of the society for the next year.

"We are striving to avoid an economic crisis by protecting our prosperity while we still have it. We are striving to avoid a war crisis by being firm before it is too late," he told the editors.

Economy in Danger

"The plain fact is, however," Mr. Truman said, "that our economy is in serious danger as a result of high prices and inflation."

Mr. Truman recommended a 10-point economic program to congress last November, including stand-by price, wage and rationing controls. He also asked for curbs on credit.

Considering all factors, he said, the danger of inflation has not diminished within the last few months. On the contrary, he said, the need for his 10-point program is "even more urgent."

"It seems to me," he asserted, "that the basic question is clear. It is whether we take action in time to do some good or whether we delay until a crisis is upon us. It is simply a matter of taking out insurance before the house catches fire."

Must Not Be Misled

The President said the American people must not be misled by those who oppose a reasonable anti-inflation program and a reasonable defense program.

"It has been said that the present administration is trying to create an economic crisis or an international crisis," he said. "The exact opposite is the truth.

"The welfare of our own people, the effectiveness of our foreign policy, and the strength of our defenses all depend on our prosperity. Only if we preserve the soundness of our economy, through prompt and adequate measures to control inflation can we contribute our full share toward peace in which freedom and democracy will be secure."

Factors To oCnsider

The President mentioned the rise in steel prices, the income tax reduction voted by congress, and the coal strike as factors to be considered in the economic program.

He also referred to the billions needed for European recovery and additional funds for national defense. While necessary, he said these will result in strains on the economy, which can add to inflation without proper controls.

Mr. Truman said the steel price rise of $5 a ton for semi-finished products was unwise and unnecessary.

"I believe," he said, "that the businessmen who made these increases did not consider their far reaching effects on the rest of the economy. They made the regrettable decision to increase prices even though they were already making record profits.

"In the face of these actions, other businessmen, with a greater regard for the public welfare, have fought a losing battle to keep their prices down."

Cpl. C. D. Solomon's Body In the State

Mr. and Mrs. H. B. Solomon, Route 2, LaMonte, Mo., received word from the War Department, that the body of their son, Cpl. Calvin D. Solomon, who was killed near Beaucondray, France on August 2nd, 1944 arrived in the United States on the ship, John L. McCartey, and in Kansas City April 11.

No definite burial arrangements have been made.

Last Wartime Premier Dead

TOKYO, April 17—(AP)—Japan's last wartime premier, Baron Kantaro Suzuki, died at his home in Chiba prefecture today after a long illness.

He opposed the war and claimed to have persuaded Emperor Hirohito to accept the Allied terms for surrender.

Warm, Dry Today, Cooler Monday

Kansas and Missouri will have more warm dry weather today but Monday should be cooler.

There is a possibility that winds may kick up some dust from the loose, dry topsoil of western Kansas today, said forecaster J. C. Huddle at Kansas City.

Temperatures should rise to the 80s in both states today.

Cooler air moving in from the Pacific coast should reach the area tonight and spread over the entire section by tomorrow, Huddle said.

Phillipsburg reported 91 degrees for the high in Kansas yesterday. Missouri's top was 87 at Joplin.

Nurse Forgets Vacation When She is Needed

Volunteers For Duty To Care For Train Wreck Victims

ENID, Okla., April 17.—(AP)—A planned vacation with her parents turned out to be a "postman's holiday" for Mrs. Roma Ciarlelli, 46-year old Kansas City nurse.

Mrs. Ciarlelli was a passenger on the Rock Island Rocket which was wrecked when struck by a truck near Kremlin Wednesday. She was en route to Enid to spend two weeks with her parents, Mr. and Mrs. J. H. Simpson.

Escaping injury, Mrs. Ciarlelli immediately volunteered for duty at the Enid general hospital. Her patient is Miss Martha L. Wilson of Manhattan, Kas., who suffered the loss of a leg and other serious injuries.

In The Car Ahead

Miss Wilson was riding in the car ahead of Mrs. Ciarlelli.

The nurse said she saw the truck bearing down on the train and that it was traveling "mighty fast." She said she wondered when the driver was going to stop and just about that time it crashed into the train.

Although Miss Wilson's condition was described as critical, Mrs. Ciarlelli said she was an excellent patient. Miss Wilson expressed hope that she could return to her work in Manhattan as a photographer.

Two other victims remained in critical condition tonight.

It was learned that the loss of his right arm might not end the musical career of Raymond Dvorak, director of bands at the University of Wisconsin.

Lucky to be Alive

"I'm lucky to be alive," Dvorak told his wife. Mrs. Dvorak explained to reporters that her husband was left-handed and is confident that his natural aptitude as a "southpaw" will enable him to continue his band leading.

Hospital attendants said a third victim, Mrs. R. W. Penning, 25, of Kansas City was in fair condition but had not regained consciousness.

Two persons were burned to death but authorities have not officially identified one of the victims, believed to be Mrs. George W. Roesler of Oklahoma City. She is believed to have boarded the train Wednesday at Herington, Kas.

Urge Return to Local Self Rule

PITTSBURGH, April 17—(AP)—Two Republican Senators—Kem of Missouri and Martin of Pennsylvania—tonight urged a return to the principle of local self government.

Senator James P. Kem said in a prepared talk before the Amen Corner Club:

"The present tendency of the people to look to some higher solution of all their problems and a way out of all their difficulties must be reversed. The trend cannot be reversed if the state governments attempt to solve local problems by passing them on to the federal government."

"I am convinced," he continued, "that the only way out of the difficulties in which we find ourselves is to reverse this trend and return to the principle under which America grew great and strong—the principle of self-government."

Ohio River is Near Crest

CINCINNATI, April 17—(AP)—The Ohio river neared its crest here today as thousands of flood victims prepared to return to their water-soaked homes.

River Forecaster George Marth said the river would start falling tomorrow and would be under the 52-foot flood stage by Thursday.

Three persons were believed drowned in the flooded Scioto river, near Portsmouth, after their rowboat overturned. The river was falling there.

City Council Will Meet Monday Night

The City Council will meet in regular session Monday night, at which time the new aldermen, recently elected, will be sworn in and will take their seats. They are Dr. George Peak of the third ward and Herb Studer, fourth ward.

All other officers elected will take their oath of office and assume their duties Tuesday morning.

Traveling Bookmobile

A group of children leaf through the pages of books from a bookmobile, a library on wheels, during a demonstration stop at a St. Louis county rural school. The scene is typical of bookmobile visits in the 12 Missouri counties being served this year. The library on wheels visits all schools in each county to allow children to choose their own reading material from the well-stocked shelves. (Associated Press Photo)

Many Civic Leaders Cooperate With Optimists on Paper Drive

Numerous leaders in civic, religious and boys work in Sedalia have joined in urging people to cooperate fully with the waste paper collection to be held throughout the city Sunday, May 2 by the Junior G-Man Club, under the sponsorship of the Optimist Club.

Among those endorsing the purpose of the waste paper drive is Mayor Julian H. Bagby. "The future of Sedalia and our nation rests with the boys and girls of today," Mayor Bagby said. "Because of the way in which the Junior G-Men are helping make that future secure, I cannot recommend too strongly that the community support their every effort to the utmost."

Harry N. Lambirth, prominent in boys work in Sedalia for a number of years, said, "By helping the waste paper drive to be made by the boys club, the community will be helping the boys to help themselves, which in itself is a valuable element in the Optimist character building program."

Doing Fine Work

"By reason of the fact that the Junior G-Men meet regularly in the Salvation Army building, we have had a very favorable opportunity to observe the fine work the club is doing," said Captain A. R. Rush, Salvation Army leader. "The club is doing a wonderful thing for the community and the boys. Their waste paper drive to raise funds is deserving of the full support of the community."

Rev. Herman M. Janssen, pastor of the Broadway Presbyterian Church pointed out that the waste paper drive to be held May 2 gives the entire citizenry an opportunity to endorse the work being done by the club. "I am confident that the people of Sedalia recognize the value of the Junior G-Men's activities and will be happy to support the waste paper campaign to the utmost," he said.

Collectors of Stamps Are in For Surprise

CLAREMORE, Okla., April 17—(AP)—Stamp collectors are in for a surprise come November, and so are fans of the late Will Rogers.

It seems that someone got his geography confused. So far, all efforts to correct it have failed.

A special stamp honoring Rogers, this state's favorite son, goes on sale Nov. 4, his birthday. Claremore, which Rogers called his home, has been named as the city where the first stamps will be sold.

"First day" stamp issues are collectors' items. The Washington stamp exchange in Newark, N. J., will issue a special envelope to be mailed from here to collectors over the world with the new stamp on it.

The Wrong Picture

That's where the geographical mix-up enters.

The envelope will have a picture of the Will Rogers memorial on it, but it's the Rogers memorial at Fort Worth. It's identified as the Claremore memorial, but take the word of experts—it's the one down in Texas.

"We written the Washington stamp exchange and told them about the mistake," Bob Love, head of the memorial here, said today, "but they haven't even answered our letters."

Love said he sent the exchange four pictures of the local memorial at their request several months ago. They were returned, he added, with the explanation they couldn't use them.

Joplin Chief Of Police Dead

JOPLIN, Mo., April 17.—(AP)—Kendrick Lloyd 52, chief of police here since November 1, 1945, and a member of the police department 17 years, died in St. John's hospital today from injuries received Thursday night near Baxter Springs, Kansas when his car collided with a truck loaded with hogs.

Lloyd was thrown from his car and knocked unconscious. He suffered a fractured skull and little hope was held for his recovery. He was alone at the time of the accident which occurred on a sweeping curve. Robert Dyche, 22, of Marshall, Mo., driver of the truck, was only slightly hurt.

Roy Isgrigg, assistant chief of police, was named acting chief before Lloyd's death.

Lightning Strikes Church Spire

STRATFORD-ON-AVON, Eng., April 17—(AP)—Lightning struck the spire of Stratford's parish church tonight and sent masonry tumbling into the crypt of the church near the tomb of William Shakespeare.

Home of Gaitan To be Shrine

BOGOTA, Columbia, April 17—(AP)—The government decreed today that the home of Gorge Gaitan, slain liberal party leader, will be turned into a national shrine. By that action it resolved the dilemma of how and where to bury Gaitan.

The slaying of Gaitan April 9 was the spark which exploded a revolutionary outbreaks that left hundreds of persons dead and large sections of Bogota in ruins. His widow said that she would not permit the body to be removed from the residence as long as President Mariano Ospina Perez remained in office.

It was understood, however, that the decree signed today by the president had the widow's approval. Opina Perez said the body would be buried in the home, presumably in a crypt to be constructed within the residence.

Juniors To Plant Petunias

The Junior Garden Club will sponsor a tea and flower show on Friday, May, 21. Any child in the city is invited to exhibit flowers whether they are a member of the club or not.

The petunia has been chose as the flower for the Junior Garden Club and children of the town plan to plant petunia seed so that these bright, sweet scented little flowers that bloom regardless of the hot weather and drouths during the summer, may be seen everywhere over the town. The motto of the club is "A colorful city by the time the State Fair opens.

Every child who has an outstanding garden will receive an L. H. Bailey National Garden award.

Farmer Has a Real Problem Bull Falls Into the Silo Pit

NEW HAMPTON, Ia., April 17—(AP)—Farmer Orvin Knutson has a two-horned dilemma at the bottom of his silo.

A 1,200-pound Guernsey bull fell into the pit and Knutson doesn't know what to do about it.

Along with nice set of horns, the critter has such a mean disposition that Knutson doesn't want to descend into the narrow confines to attach hoisting belts.

He says it would cost more than the animal is worth to knock an exit hole through the silo walls and that the animal has not been fattened for slaughtering.

Besides, he has three feet of silage which would be spoiled in the killing.

Lewis Demands Withdrawal Of Court Order

Attorney General Will Take Action He Believes is Right

By Max Hall

WASHINGTON, April 17—(AP)—John L. Lewis and the government barked at each other out of court today as the country waited for a Monday verdict in his contempt trial.

Coal mine owners joined in the feuding.

Lewis, acting through his lawyer, demanded that Attorney General Tom Clark call off the April 3 court order requiring an end to the soft-coal work stoppage.

The Taft-Hartley act says such orders shall be cancelled in case of a "settlement." The United Mine Workers say that an April 12 arrangement for miners' pensions is a "settlement." Thus Lewis was in the position of invoking a law which he enthusiastically hates.

Clark Statement

Clark promptly issued a statement saying:

1. That "a substantial number of the miners have not yet obeyed the court's order by returning to work." (Associated Press reports from the coal fields said about one-third of the 400,000 soft-coal miners are still out.)"

2. That "I shall take whatever action the facts and law warrant at the appropriate time."

3. That the "immediate question" is the judgment due Monday morning from Judge T. Alan Goldsborough in the contempt-of-court case.

Backed Clark

About the time Clark was putting out his statement, the Southern Coal Producers Association hopped in. Joseph E. Moody, president of that group, sent Clark a telegram, backing him up.

Moody said the union is wrong about a "settlement" having been reached.

He said, that "the strike continues to some extent" in all the southern coal felds, and that "reports from the mines indicate that the strike wll be renewed with vigor" if Coldsborough's verdict Monday should "inconvenience Mr. Lewis."

McDaniel Dies Of Pneumonia

ST. LOUIS, April 17—(AP)—Lawrence McDaniel, 64, well known St. Louis Democratic politician, died today of pneumonia at Jewish hospital.

McDaniel's physician said the former circuit attorney had been in ill health for the past eight years and in severe pain for several months. His left leg was amputated a few days ago because of the spread of a gangrenous condition resulting from diabetes.

He was the Democratic nominee for governor in 1940—the election which led to the attempt to steal the governorship from Forrest C. Donnel, Republican nominee and election winner.

Official election returns showed Donnell winner by 3,613 votes but a Democratic House refused to seat him. Donnell appealed to the state supreme court which ordered the House to follow constitutional procedure. Donnell was seated 44 days after the legal date for his inauguration.

Youth Injured By Automobile

James Watson, 17, Route 5, was injured Friday night at 8 o'clock while working at the Garst's Drive Inn, 115 West Broadway, and was taken to the Bothwell hospital for emergency treatment.

The accident happened, according to reports given to the police, when the boy was carrying a tray on the south side of the Drive Inn and got his leg injured when a 1948 Dodge coupe driven by Clay McGrew, Marshall, pulled forward.

Dr. Karl B. Gonser treated the youth, who has a fracture just above the ankle.

Attending Meeting In New York City

24 Buried In Common Grave

ENNIS, Eire, April 17—(AP)—Twenty four of the 30 persons killed in a Pan Amercan airliner crash at Shannon airport Thursday were buried today in a common grave in the Ennis churchyard.

As prayers were offered by Protestant ministers and Catholic priests, sextons began filling the grave, 18 feet square.

All those buried in the communal grave were individually unidentified.

In adjoining graves were placed the bodies of Mrs. Agnes Henderson, and her 13-month-old son, Bruce, and the bodies of three of the crew members of the crashed airliner.

The body of Sir Homi Mehta, of Bombay, was flown to London for return to India.

Important Events In Last Minute News

DETROIT, April 17—(AP)—The automobile industry's first 1948 wage offer—a six-cent hourly raise from Chrysler Corp.—was turned down today by union representatives of the company's 75,000 employes.

The CIO United Auto Workers delegates from 13 Chrysler plants also asked the union's executive board for strike approval.

Such approval, expected from the board at a special meeting Tuesday, would give national UAW Chrysler director Norman Matthews authority to order a walkout at his discreation.

CHICAGO, April 17—(AP)—The CIO United Packinghouse Workers Union today wired President Truman that there "will be no operation in Armour plants" after the meat packing company said its negotiations with the union had bogged down.

Negotiations to end the 33-day old nationwide walkout of meat handlers reached a stalemate in nearly half of the industry.

JERUSALEM, April 17—(AP)—Jewish militiamen of Haganah announced that they beat off today fanatical Arab desert warriors, who charged with knives clenched in their teeth, in a wild battle 15 miles east of Haifa.

Haganah estimated the Arabs lost from 100 to 130 dead and 50 wounded out of a force of 400 which stormed in waves for three days against the Jewish settlement of Ramat Yohanan. The Jewish losses were given as seven killed.

ATLANTA, April 17—(AP)—Savage beating of a young war veteran with a leather lash brought charges by Georgia's governor today that the Ku Klux Klan is setting out on a systematic terror campaign.

WILMINGTON, Del., April 17—(AP)—The Du Pont company today announced development of a new chemical that it claims will grow grass greener, smoother and healthier.

The chemical is called F531 fungicide. Du Pont says the product controls dollarspot, a turf disease that causes bleached spots of dead grass about the size of a silver dollar.

Communist Setback Is Predicted

New Food and Coal Shipments to Italy; Mobilized Forces To Protect Voters

By John M. Hightower

WASHINGTON, April 17.—(AP)—The United States gave Italian voters a last minute reminder today of the importance of American aid to Italy by announcing new food and coal shipments to that country totalling $8,102,000.

High diplomatic officials predicted meanwhile that the Communist bid for power in the Italian elections tomorrow and Monday would be defeated by the voters.

ROME, Sunday, April 18—(AP)—From their homes in the fields and the cities, Italians began lining up today to vote in the national elections—fully aware of the momentousness of their decision and knowing well that the eyes of the world were on them.

Many stayed up all night, talking, arguing, thinking, and then headed for the voting places.

All of the nation's mobilized forces—330,000 troops and police of all kinds—were ordered to protect them in their rights.

All of yesterday's anti-Communist newspaper carried advertisements saying: "Tomorrow you decide the destiny of Italy, the destiny of Europe! Vote!

This plea summed up sharply the vast issues facing the 29,146,221 Italians eligible to vote in the two-day election. The warning was super-imposed upon a map of Europe showing Russia and her eastern European satellites in deep black, the rest of Europe in white.

Officials were more optimistic about this than they have been at any time in recent months. They were by no means sure, however, in their talks with reporters that a victory won against the communists at the polls by Italian Premier Alcide De Gasperi would in fact be accepted by the communists.

Might Use Force

There is apprehension here that the communists might try to grab power through force. This could happen either around the middle of next week when the vote becomes known, assuming a communist reversal, or else during the parliamentary reorganization of the government beginning May 8.

Today's announcement of new aid to Italy was only a drop in the vast stream of goods and supplies which has been poured into the strategic former enemy country since the end of the war. American government officials said the total of U. S. aid is now about $2,000,000,000

Today's announcement apparently served the purpose of providing Italians with fresh evidence, if any was needed, of the existence of American help and its continuance under the European recovery program. The aid was announced by Recovery Administrator Paul G. Hoffman.

Hoffman's office said it covered emergency help for Italy, France and the Netherlands in this matter:

Serves As Reminder

$11,308,000 of aid to France, $1,014,000 of aid to the Netherlands and $8,102,000 of aid to Italy including $6,000,000 in coal and the remainder in wheat flour, soya flour and rolled oats.

Whether or not Hoffman chose the timing of the announcement to have some influence in Italy on the eve of the elections, diplomats suggested that it would serve as a reminder. Hoffman has announced that he intends to run the recovery program on a non-political basis.

Some American offiicals feared two or three months ago that the communist-left wing socialist bloc might run up a vote of 45 per cent or so. They now say they believe that the total vote will not exceed 35 per cent. One official said, "For a round number guess you could figure the communist bloc vote probably at about 32 percent."

If the American estimates are correct the result of tomorrow's elections will be a terrific setback for Soviet communism in its struggle to expand westward.

Campaign for Presidents of Student Councils Interesting

Yes Sir! It's election year at Smith-Cotton high school (it is every year). It has been a long time, however, since the old Alma Mater has seen one comparable to this one.

Campaigning for the presidency of the Student Councils at Smith-Cotton is advancing with more fervor every day. The candidates and their publicity managers are kept on the run, inventing more and different ways of catching attention and snagging votes.

One student campaigns as the "Smiling Irishman," and passes out replica Shamrocks for his constituents to wear. He has little or no Irish blood in his veins, but this is irrelevant to him and his supporters. Another claims to be the "Progressive One." Clever signs (one gives free use of the drinking fountains, courtesy of the candidate), pictures and balloons constitute some campaign lines. A few ambitious souls have had regular advertising cards printed and some pass out candy and cigarettes. Still others are letting modesty and diplomacy be their by-word. It is friendly competition, running on an honest basis.

Presenting Programs

During the noon hour, the different "parties" have been taking over the auditorium stage to present programs and skits. A typical program goes something like this—political announcements, introduction of candidates, recorded music, five minutes of confusion, school instrumentals, endorsements, more confusion (cowbells ringing and such), announcement of platform, more confusion, etc.

These programs contain a lot of clever ad lib. The students seem to lap it up and howl in appreciation of the antics. However, the teachers think the agendas are too disconnected. They don't want them, the students can have them, they're too noisy for them!

This bedlam is slightly reminiscent to some upper-classmen of the H—— Weeks, which were once traditional in the initiating of "L" Club men.

The race continues to be one of friendliness and all entrants are pledged to support fully whomever is elected with no animosity involved.

Those still in running positions are Frank Potts, Dennis Semkin Bill Funkhouser, Johnny Heis and William Riley, in the senior high; and Donald Allcorn, Bill Arnold, Bill Carpenter, Bill Cooper and Stanley Walch, in the junior high.

Girls Drown In Swollen River

CINCINNATI, April 17—(AP)—Two high school girls drowned at Friendship, O., nine miles downstream from Portsmouth, Friday night as the crest of the flooded Ohio river neared Cincinnati.

The state highway patrol identified the victims as Mary Jane Buchett, 16, and Wanda Mowery, 17. Patrolmen said the girls were in a boat containing six persons sightseeing in the inundated river town.

Helen Buchett, 12, and Roger Birdwell, 12, were rescued by witnesses, while Stephen Correll and Dave (Red) Callahan, whose ages were not available, swam to safety, the patrol said.

Citizens of Newport, Ky., across the river from Cincinnati, waged a winning battle tonight to hold the swollen Licking river within a six-block pool.

Charge Having Bogus Bills

ADA, Okla., April 17—(AP)— A 33-year old farmer, George W. Kennedy, was arrested at nearby Davis Friday afternoon and arraigned here on a federal charge of possessing counterfeit bills.

The arrest was made by secret service agents who said it was the sixth arrest in the roundup of a nationwide counterfeit ring.

The two agents, who were not identified, said they found $470 worth of "very good" ten and twenty-dollar bills buried in a glass jar on Kennedy's farm near Davis. They said such bills are usually sold to distributors by the makers for about $400 for a face value of $1,000.

These particular bills, the secret service said, were good reproductions and were printed on a high grade linen bond paper. Only the ink was lighter in color than government bills.

Kennedy is being held there in the Pontotoc county jail after the arraignment before U. S. Commissioner Coy A. Mowdy.

Kennedy's arrest is the sixth in the case since the last week in January. At that time Virgil Carl Sweeden, Opal Hunt Schrach, and Martin David Bohreer were arrested at Springfield, Mo. Sweeden is now serving 15 years at Leavenworth. In February, the secret service arrested Al Greer, former convict and Muskogee, Okla., night club operator, and a second man.

Bills of the same type have appeared in Illinois, Indiana, Missouri, Arkansas, Kansas, Louisiana, Oklahoma, Texas and on the Pacific coast, the agents said.

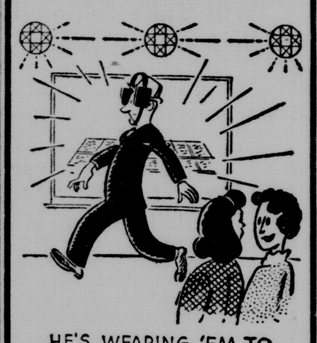

Average Grants In Assistance $36.52

JEFFERSON CITY, April 17—(AP)—Missourians getting old age assistance—115,778 of them—received average grants of $36.52 this month.

Proctor N. Carter, state welfare director, reported April payments totaled $4,228,257. That was an increase of $23,20 over March, when 115,589 persons got grants averaging $36.38.

Aid to dependent children averaged $46.28 per family or $17.89 per child during April. Altogeher 20,256 families received a total of $937,420.

March payments to 20,070 families totaled $929,499, an average of $46.31 per family.

Price Support Approved By Farm Bloc

Hot Battle Is Waged Over The Issue On Oleo

By Francis M. Lemay

WASHINGTON, April 17 — (AP) —The "oleo battle" split the farm bloc wide open Friday, but after an uproarious session, the House agriculture committee unanimously approved legislation to continue farm price supports to June 30, 1950.

The bill, however, would reduce the support of cotton from 92.5 per cent of parity to 90 per cent. A new provision was written to specify that supports for milk and milk products shall not go lower than 90 per cent of parity.

Although the oleo issue was not directly involved in today's voting, the scrap reflected the bitterness between southerners, who want special taxes on oleo repealed, and midwesterners who want them retained. (Cottonseed oil is much used in oleo, while the midwest is strong on milk and butter production.)

The cotton belt members lost on a 10 to 9 vote an effort to keep the cotton support level at 92.5 per cent of parity. Rep. Pace (D-Ga) said he will carry the 92.5 battle to the House floor.

The House has set a showdown vote on the oleo issue for April 26. A majority of the House members have signed a petition indicating they will vote to remove the oleo taxes.

Final Outline

As for the price support program, here is what the House committee finally approved:

1. Price supports at 90 per cent of parity for the six basic commodities—cotton, wheat, corn, tobacco, rice and peanuts. These supports now are at 90 per cent with the exception of cotton, which is at 92.5 per cent.

2. For most non-basic commodities, supports ranging from 60 per cent of parity to the highest support level in force for 1948. An exception is milk and milk products, whose support shall not be less than 90 per cent.

3. Continued government authority to impose acreage restrictions and to set marketing quotas. Committee Chairman Hope (R-Kas) said, however, that due to the huge demand for farm production, there is little if any likelihood that any marketing quotas will be invoked in the next year and a half.

Price supports on non-basic commodities, adopted during the war, will end December 31, without continuing legislation. The bill continuing them now goes to the House floor for a vote.

The supports are based on "parity." This is a price intended to give farmers an income with a purchasing power as great as in some past favorable period for agriculture—usually 1909-14.

The government supports prices by buying up farm products or granting farmers loans on them.

Life May Depend On Autopsy

WELLINGTON, Kas., April 17 —(AP)—The body of Mrs. Jessie Neff was exhumed Friday for an autopsy. then returned to its grave in a quiet little cemetery near her long-time farm home.

Upon results of that autopsy may depend the life of her husband, who signed, then repudiated, a statement that he poisoned her last November.

George Neff, lean, quiet, 45-year-old Perth, Kas., farmer—classed by his neighbors as "well-to-do"—is sheduled for trial May 7 on dual charges of murder.

Conviction can mean death, or life imprisonment at hard labor. The jury will decide.

The complaint, signed by Mrs Oleva Wynn, 39-year-old neighber, charged that Neff poisoned his 43-year-old wife, who died Nov 17, then fatally shot Mrs. Wynn's husband, Kenneth, 45, last Dec. 16.

Mrs. Wynn and Mrs. Neff were sisters.

Neff's statement to officers, signed at Wichita, Kas., Jan. 10, admitted both slayings. It said he put rat poison in sleeping capsules taken by his wife, and a month later shot Wynn with Wynn's .22 rifle, through a barn window—because of his passion for Mrs. Wynn.

He had been carrying on an illicit love affair for 22 years with Mrs. Wynn, the Neff statement said.

Car Was Afire

A 1937 Ford coach became ignited Friday afternoon at 2:41 o'clock at Broadway and Ohio avenue, due to a broken gasoline line.

The fire companies were called, but upon their arrival, the blaze was out.

The automobile belongs to John Vaught, Route 5. Only slight damage resulted in the mishap.

Italian talc, noted for its high purity, is almost 99 per cent magnesium silicate.

Mr. and Mrs. Schanz have moved recently from Indianapolis, Indiana to Lafayette where Mr. Schanz is now attending the Graduate School of Purdue university. He is working on his Phd. in mechanical engineering.

Murder Charge Against Youth

NAPA, Calif., April 17—(AP)—A murder charge was placed today against 13-year-old Richard Thompson, accused of the sex slaying of a 6-year-old girl.

Police Chief Eugene Riordan signed the first degree murder complaint.

The nude body of the little girl was recovered from a muddy creek here after an all-night search.

Several hours before, Richard had been seized by police at a movie theater. Pupils at the school where he is in the sixth grade told officers they had seen him riding his bicycle toward the creek, with Verna on the handlebars.

Coroner Charles Burchell said the youngster had been subjected to "great force and violence," then drowned.

Each year the President of the United States receives hundreds of gifts; the practice started in George Washington's day.

President George Washington while in office received such gifts from citizens as apples, cheeses, Jerusalem artichokes, flower roots, and Spanish swords.

Rev. Bessmer at Spring Meeting

Rev. William C. Bessmer and August Kueker representing Immanuel Evangelical and Reformed church of this city attended the spring meeting of the Kansas City Synod of the Evangelical and Reformed church, held at St. Joseph, Missouri, April 13-15. The pastors and lay delegates, representing churches of western Missouri, Kansas and Oklahoma, approved the merger with the congregational Christian churches by a majority of 106 to 12. Kansas City Synod is one of thirty-four synods of the church voting on the merger this spring. Immanuel Evangelical and Reformed church, Sedalia, approved the merger unanimously at its annual meeting in January of this year.

The Evangelical and Reformed church has a membership of over 700,000 and the Congregational Christian churches constitute a membership of over one million.

When the necessary proportion of the churches and areas of the two bodies approve the merger a joint meeting of representatives from both groups will be called to take final action on the meregr.

Not Guilty is Jury Verdict

Saturday afternoon in the Pettis county circuit court, the case of State vs. Kenneth Kehrin was tried, and a jury's verdict was not guilty on account of insanity, and further stated he had not recovered from such insanity.

Kehrin was arrested last March after he admitted his entering the Central Coal Co., and Milton Coal Co., taking a radio from the Central Coal Co., and $3 in cash from Milton Coal Co. Later he gave the portable radio to relatives in Clinton it was ascertained.

The jury was composed of C. L. Carter, George Poland, George Brunkhorst, W. E. Ferguson, Thomas J. Raines, James Harvey, A. W. Haller, Frank Chmelir, Mrs. Lon Leslie, Paul Read, Bruce Claycomb, and O. F. Gorrell.

The attorney for the defendant was H. C. Salveter.

Phillies In a 7-3 Victory Over the A's

PHILADELPHIA, April 17—(AP)—Curt Simmons pitched and batted the Phillies to a 7-3 victory over the Athletics here today in the first game of the city series here before 10,415.

The young southpaw allowed only four hits in seven innings and made three hits. Harry Walker also had three safeties.

Large Crowd at Refrigeration Co. Open House

A large number of people attended the two day opening Friday and Saturday of the Sedalia Refrigeration Company and Sedalia Appliance Company at 118 East Third street, and many baskets of flowers were sent by friends and other business firms.

The company is owned by Ernest F. Strickler, who has been a Sedalia business man since 1933. Previous to that time he was in an A and P store for a number of years in Sedalia and in 1933 went into the grocery business for himself. Ten years ago he sold his grocery store and started the Sedalia Refrigeration Company at 201 North Moniteau avenue, and later opened the Sedalia Appliance company at 210 East Second street. The building at 201 North Moniteau avenue he will now use as a warehouse.

Sales And Office Force

Mr. Strickler has as his sales and office force J. M. Strickler, manager of the household department, Warren Poindexter, also of that department; Frankie Joe Hugleman, Jr., and Jack Gold, appliance department; W. M. (Boots) Dey, Robert Evans, Ralph Grotzinger and Oliver Schieder, of the commercial department; Mrs. Betty Poertner and Miss Marlyss Jean Strickler, office, and G. C. Williams, manager of the farm and home freezer department.

Mr. Strickler handles a complete line of refrigerators, electric stoves, small appliances, and anything in the commercial line.

The store building has been redecorated inside in green and white and the outside of the building has been painted white with lettering in black.

Enters Veterans Hospital

Verrel Martin has entered the Veterans' hospital at Excelsior Springs for medical treatment. He is a former Marine and until recently has been employed by the Missouri Pacific railroad.

Mr. Martin was accompanied to the hospital by his wife, also Mr. and Mrs. John White and Mrs. Leon Wells. Mrs. Wells visited with her husband, who is a patient in the hospital.

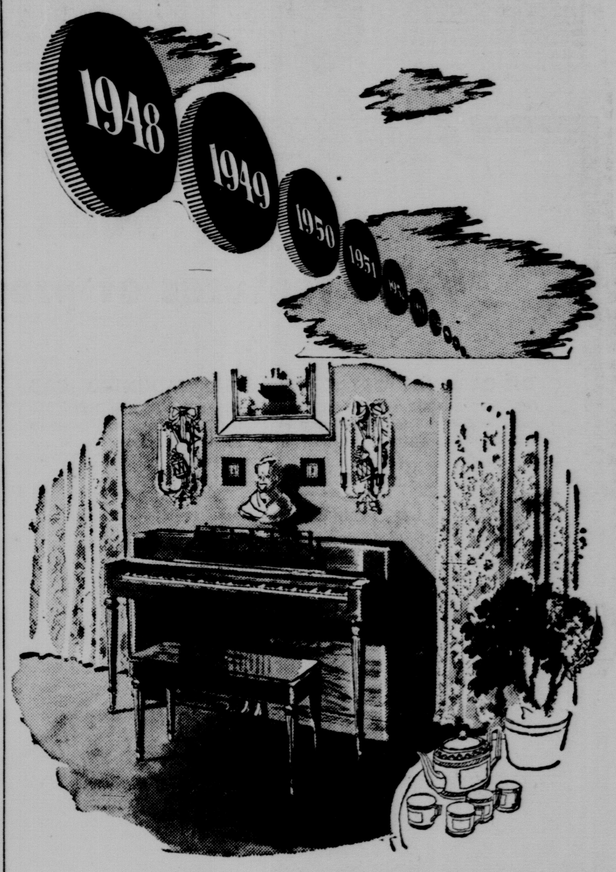

Mrs. Martin and two children, reside at 919 West Fifth street.

Circle Meets Tuesday

The Business Women's Circle of the First Baptist church will meet Tuesday night at the home of Miss Eva Evans, 706 West Broadway.

Mrs. Ruth Brereton will be in charge of the program.

The Daily Washington Merry-go-Round

by Drew Pearson

WASHINGTON, April 17—(AP)—In maneuvers over Great Britain, the air force has demonstrated its ability to slip a bombing mission of B-29 superfortresses through the equivalent of Russia's defenses.

Lt. Gen. Curtis Le May, air force chief in Europe, arranged with the Royal Air Force to send a mock mission against Britain's tight intercepter and radar net. Because of long experience during the war, the British net is supposed to be the most effecicient in the world. However, the B-29s not only broke through to their target, but most of them were never detected.

Secret of the American success was altitude. The big forts flew in at ceiling of 35,000 feet.

As a result of the maneuvers, air force strategists are convinced that the "Iron Curtain" around the Soviet could never stop a highflying mission of B-29s, especially since Russia's defenses are stretched out over thousands of miles, compared to the relatively small area defended by Britain.

Note — The joint British and American maneuvers were pulled off by General Le May without orders from Washington.

MacArthur's Triumphal Tour?

General MacArthur's political boosters are trying to find a way to revive their hero's battered popularity. Despite the drubbing MacArthur received in California, Wisconsin and Nebraska, Congressman A. L. Miller of Nebraska says: "MacArthur did not quit at Bataan and he is still a very live candidate now. I am amazed that anyone should count the general out."

Next move being urged by MacArthur's friends is his immediate return to the United States for a hero's ovation. If MacArthur flies to California and makes a triumphal cross country rear platform train trip to Washington, with a speech to a joint session of congress, they claim his political appeal would be revived.

Note — Other public observers believe MacArthur might wind up with as many boos as cheers on such a tour. In addition, it would just about ruin his work as commander of occupied Japan.

Locomotives to Russia

Alert war assets administrator Jess Larson has stepped in to block the sale to Finland of 30 locomotives, built during the war for broad-gauged Russian railroad tracks.

Larson reported to Presidential Adviser John Steelman that he suspected the Finns of fronting for Russia and got White House permission to hold up the sale.

Before Larson stepped in, however, the Finns had already bought up six locomotives at $6,200 each. For the remaining 30, they were prepared to go as high as $50,000 each — an indication of how badly Russia needs rolling stock.

Larson now plans to offer the locomotives to western Europe under the European recovery program.

Jobs Grease Machines

Ed Flynn, boss of the Bronx, ex-chairman of the Democratic national committee and one of the men who put Harry Truman across as vice president, has decided to stick with Harry for another round.

To insiders this is big news. For Ed Flynn, more than almost any other Democratic leader, has groused and growled, fumed and fussed at Truman's leadership. Several times he has threatened to bolt. Once he said he wasn't going near the White House any more.

Despite all this, Ed has finally sent word to Democratic Chairman McGrath that he will stick.

Behind this, insiders suspect, is the same thing influencing other standpat Democrats — patronage. Unless they go along with Truman, they are cut off from the thing that greases political machines — jobs.

Ed Flynn, incidentally, got one juicy, all-important job just a short time ago. After considerable pressure he secured the appointment of Paul Rowen to the securities and exchange commission. Rowen is known to be ready to vote for Ed Hanrahan to become chairman of the SEC, and Hanrahan, in turn, is also a friend of Flynn's.

This will give the Flynn law firm, which handles considerable Wall street practice, two friends on the commission which governs Wall street.

Note — It was after the White House appointed Bowen to the SEC that Flynn decided to stick with Truman.

One-Man Dictatorship

In addition to the excellent job done by Senator Bridges in smoothing John L. Lewis's ruffled hair, congress might give some thought to the most undemocratic part of Lewis' setup —his failure to hold real mine elections.

Unlike the United Auto Workers, the Electrical Workers, and various other unions which stage tough election battles annually, the United Mine Workers hasn't had any real election for years.

Once or twice rival mine leaders have tried to oppose Lewis, only to be ostracized or beaten up. Gradually, therefore, all leaders with views of their own have drifted out of the mine union — John Brophy, Phil Murray, Van Bittner, Allan Haywood and David MacDonald. Lewis now stands serene and alone, the supreme dictator of the miners. There is no one in Washington headquarters to challenge him.

Furthermore, Lewis also keeps tight hold over every district leader. And woe unto any rank and file member of the union who revolts against a district leader. His life is made miserable.

Only hope for breaking up the Lewis dictatorship is a law permitting minority groups of miners to petition the National Labor Relations Board to hold district elections or even national elections in the United Mine Workers. Many miners resented the current coal strike, but there was nothing they could do about it. If they could stage free elections, however, Lewis would do more consulting with his own men before throwing both their economy and the nation's out of whack.

Smith-Cotton In Athletic Meet

Friday a large number of Smith-Cotton students in athletics made a trip to Jefferson City where in a three-cornered meet at track Jefferson City won with Sedalia second and Columbia third.

Jefferson City scored 68½ points; Sedalia 43¾ points and Columbia 35¾ points.

In the tennis matches the unusual finish resulted each being tied.

In golfing Jefferson City was first, Sedalia second and Columbia third.

Coach J. M. Darr appeared fairly well satisfied with the showing by the Sedalians.

Red Cross Corner

The members of the Junior Red Cross in the rural schools are invited to a picture show April 24, at the Fox theater at 10:00 in the morning. The picture will be Stable Mates. Pettis County Chapter of the American Red Cross is the host and of course there is no charge. Miss Mary Sue Monsees, the teacher at Oak Point school, brought into the Chapter office eighteen soft toy ducks. These toys had been made by the children in her school who are members of Junior Red Cross. They were taken to the Melita Day Nursery, where many small children will enjoy them.

At the request of the Veterans' Administration fifty bed pan covers were made and sent to McKinney, Texas, to the Veterans' Administration Hospital. Also this week seventeen knitted wash cloths, fifty bed jackets and fifty reading jackets were completed and sent to the Area office of the Red Cross at St. Louis for distribution in Veterans' Hospitals.

Monday night there was a film shown at the Parish House of the Episcopal church for members of the Red Cross who are particularly interested in the Disaster plan. There were representatives there from the canteen, the nurse's aides and the Nurse's aides committee. This film was very interesting, having been made in Woodward, Okla., during the period of rehabilitation, showing how the different services of the Red Cross set up.

Four Indicted Over Flogging

ATLANTA, April 17—(AP)—The flogging of an unemployed construction worker brought indictment Friday of four men on charges of assault with intent to murder.

Fulton Police Chief G. Neal Ellis quoted one of the men, whom he identified as Sherman Keheley, 58, as saying that three of them were members of the Ku Klux Klan.

The victim of the lashing with a three-inch leather strap was 23-year-old Joseph Charles Berry, found by police last night bent against a tree in a lonely wooded area. He had been partially stripped and his back was torn and bleeding.

Ellis said a number of printed cards reading "the black raiders" were found at the scene of the beating. A broad leather strap about two feet long, a pistol and crude black masks also were found.

Ellis identified the others held as Ed W. Mitchell, Robert B. Ellison and Manuel S. Comboia, all of Atlanta. All are held under $5,000 bond each.

An all-time record of 95 million tires and 79 million tubes were produced in the United States in 1947.

Envoy's Daughter Shines As Royal Favorite

By Russell Landstrom

LONDON, April 17.—(AP)—A year ago a gay and comely teenage girl from Arizona came to London and caused hardly a flutter.

She shines today as one of the brightest stars in the younger social set and a favorite of British royalty.

Tall, lissom Sharman Douglas, 19-year-old daughter of U. S. Ambassador and Mrs. Lewis Douglas, has caught on. An intimate friend of Princess Elizabeth and Margaret Rose, she has charmed everyday people little less than society's top crust. Probably few other American girls have so completely won over hard-to-impress Britons.

The princesses apart, and maybe a film star or two, she is the most photographed girl in the land. Indulgent gossip thrives on her every mood and fancy. Stories of romantic attachment gather around her, although her friends say she is heartfree.

Matchmakers have linked her name with that of the blue-blooded young Marquess of Milford Haven. He has been her most frequent escort to theaters and fashionable west end restaurants.

Try to Stop Rumors

The Douglas family try to scotch the rumors. Responsible embassy sources, obviously solidly backed up, say "there is not a word of truth in these reports nor in any other tittle-tattle minting that Miss Douglass is engaged or about to be engaged."

They grant she has boy friends aplenty—nothing serious in any direction, of course—but emphasize if there is a special one it's a family secret.

Sharman's high-spirited youth, eagerness and pretty face are what the British people go for. That she is unassuming as well as fair clinches the spell.

"If there is such a thing as a typical American girl, free of false glamor and sophisticated airs," said a London newspaper editor recently, "we think Sharman fits the description."

Royal Family Sized Her Up

Clearly, the royal family sized her up that way, too.

That Sharman is the only girl not of the royal circle who is on a chummy footing with the princesses is a dead giveaway of palace sentiment toward her.

With Elizabeth, Prince Philip and Margaret Rose she has gone to the theater and back stage also, mingling unself-consciously with excited artists. Most famous of dressing-room visits was with American Comedian Danny Kaye several weeks ago.

The more sober-minded audiences at Covent Garden opera house likewise are used to seeing Sharman with the royal family. Usually the elders are present on these occasions. But Sharman, leaving her vivacious mother with the king and queen and perhaps the Duchess of Kent in the royal box, prefers a corner in the stalls.

Last summer she sat with the royal family in its box at Lord's cricket grounds, strolled with the princesses and Philip at Buckingham Palace garden parties. She was a special guest at the royal wedding in November.

Its Own Business

Precisely what the royal family thinks of Sharman is its own urivate business. But there can be no doubt that it is amused. Her way of putting things makes the king laugh. The queen likes her frank, open American quality. The Duchess of Kent was overheard to say: "A sweet child—and unspoiled." The young daughters of the house of Windsor are fond of her, of course, because, leaving out the differences in upbringing, she is a good deal like themselves.

Sharman herself says she doesn't know what all the fuss is about. Invariably, when the spotlight's glare is upon her, she murmurs "What would they think in Arizona?"

New York-born Sharman landed here fresh from a year in Vassar and her coming out in Manhattan. She arrived in time for the first full season in London, and by the end of the summer of 1947 was the acknowledged debutante of the year.

Not Gone Social

But Sharman and her parents quickly correct any notion that she has "gone all social."

"The Ambassador and Mrs. Douglas look with extreme disfavor upon anything which might give people the impression their daughter is a butterfly," said a member of the embassy staff. "Sharman is far from that. She dislikes frivolous publicity as much as her parents do."

In order to get "a bit of solid earth," Sharman has enrolled in a secretarial college which she attends six hours daily, excepting two days when a tutor instructs her at home.

"I feel I should know how people earn their living and how to get things done for myself," she told friends.

"I honestly haven't had a real breathing spell since I arrived," she says. "At first I was a bit lonesome and homesick. Everything seemed so new and different here. But it didn't take me long to get over that feeling. I've made a lot of friends in London."

Friendly With Royalty

Princess Elizabeth obviously has much influenced her, stimulating an interest in the more sober problems of youth. Princess Margaret Rose captivated her because "she's so friendly and cute."

Keen on the theater, movies, music and dancing, Sharman also enjoys a good book. She reads now mainly for entertainment.

Always chick, but never flashy nor over-frilly, Sharman prefers the middle ground of fashion. Her clothes run to conservative cut. Her hats, though perky and bound to catch the eye, are not extreme. She likes color in a costums and is lucky enough to look well in practically anything.

She applies makeup with light strokes. "She is very pretty as she is," observed a close friend.

FRESH BLOOD A MUST FOR FREE ENERGY

Do you feel like you are tied to a drag everytime you try to do something? If so, don't let a low blood count hold you down when you may release vibrant energy to every muscle, fibre, cell.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloat and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

T/3 Edward Bruce, son of Mr. and Mrs. C. N. Bruce, 121 East Sixteenth street, who is here on furlough visiting his parents. He will go from here to Camp Stoneman and from there to Korea. He has been in the service two and one-half years.

Camping will receive top billing on the Girl Scout summer program this year, according to plans announced today by Mrs. Elmer Dillard, commissioner. Local Scouts will have opportunity to go on troop week-end trips and overnight hikes very shortly, according to Mrs. A. A. Studebaker, camp chairman, the "Little House" will be in readiness for the troops by May 1.

Plans are being discussed for the annual Day-Camp week at Camp Sakajawea, the date will be announced later.

"The Sedalia Girl Scout council's goal is to be able to give every member a taste, at least, of camp life," Mrs. Dillard said.

Camping has always been an integral part of the program of the 36-year-old Girl Scout organization, she stated, and special effort is being made this year by councils throughout the nation to extend camping facilities and opportunities to the ever-growing membership.

Camping Makes Girls Resourceful

"Scout authorities have found, by experience, that camping helps make a girl more resourceful and self-reliant; helps her make friends and provides her with skills that open new educational and recreational vistas. Camp Sakajawea, like all Girl Scout Camps throughout the country, has been set up to meet the basic requirements of health and safety established by the national Girl Scout organization, which also prescribes the standards for day camps, troop camps and overnight hikes. While activities at camp are under the supervision of adults, Girl Scout campers plan and carry out their own program, just as they do in their troops," Mrs. Dillard explained.

Three reservations have been made for week end camping at the Little House in May, and two for Saturday weiner roasts, showing the Sedalia Girl Scouts are outdoor-minded early in the season.

Watch for the announcement for Day-Camp Week, in June.

Callis, Glenn, County Judges, File Saturday

Pettis County's associate judges to the County Court, Saturday filed for the Republican nominations of their respective districts. Judge Edward "Edw" Callis filed for the western district nomination and Judge Vernon P. Glenn for the eastern district.

Judge Callis has served for two terms, a total of four years, representing his district. He is well known throughout Pettis county and is a farmer-livestockman, residing at Hughesville. He is well known throughout the county as a mule buyer and shipper.

His district comprises the following townships, Hughesville, La Monte, Cedar, Green Ridge, Lake Creek, Longwood, Flat Creek, Elk Fork, Washington, Prairie, Blackwater and Dresden.

Resides on Farm

Judge Glenn has served one two-year term from the Eastern district. He is now residing on his farm on R.F.D. No. 1, Beaman, to which he moved about three years ago. Judge Glenn, prior to moving to the farm, was with the National Refining Co., in Sedalia for more than twenty years.

His district comprises the City of Sedalia, Sedalia Townships One and Two, Smithton, Bowling Green and Heath's Creek.

Besides other county business coming before the court, both Judges have been very active and interested in the Pettis county road building and improvement programs.

Forty Years Ago

What is known as the Thatcher coal mine, four miles north of Green Ridge on the farm owned by Dr. Frank Smith, of Red Oak, Ia., has been leased by I. C. and J. E. Riggs and Emmet Grogan, of Henry county, who will operate the mine.

John P. Warren has sold his farm three miles south of Sedalia to Nick Lauer, of Redwood, Ia.

Bertram A. Shuman, a former Sedalian, who is now secretary of the Y. M. C. A. at Buenos Aires, South America, is in the city.

J. T. Loveland, owner of the Palace livery stable at Fourth street and Lamine avenue, held a closing out sale at auction Saturday in front of that place, prices for the offering being excellent.

Members of the Elks minstrels will Monday night have a little banquet of their own at 7:30 o'clock. Turkey and other good things will be on the menu.

Out of Hospital Today

Walter Morgenstern, a former Sedalian, recently operated on at the Bell Memorial hospital in Kansas City, Kas., will be taken to his home, 5337 Lydia avenue, Kansas City, today. He is considerably improved. Mr. Morgenstern is a son-in-law of Mr. and Mrs. George Poland, 909 South Ohio avenue, this city.

STYLE GUIDE for today's woman

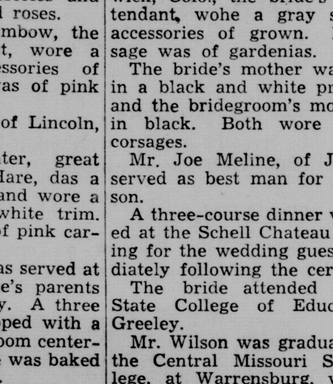

We are finding every day that many of our customers are confused as to the sizes of garments. A woman of forty can wear a size thirteen as well as a very young woman. A number on a garment does not mean an age, but a size that is proportioned for a particular type of figure. The odd sizes such as nines, elevens, thirteens, fifteens and seventeens are made for a short waisted but otherwise regular size. You will find a wide assortment of styles, tailored and the extremely dressy type in these and it is up to the individual to select what best fits into her wardrobe. Let's take a woman who is thirty-five and she feels that she needs a size fourteen, but she is short-waisted and must have it altered—on the other hand if she would try on a thirteen she would probably find that it would be a perfect fit. Not only will she be able to make a purchase without extra alterations but she will be able to wear a wider range of styles. There are sizes 12½ to 24½ which do not mean matronly type of clothes especially but again they are proportioned to a particular type of figure—one that is short waisted but with full hips and bust. Come in and let us try some of the different types and sizes on you and you will feel that you will have the "right look" for summer.

Social Events

Miss Carolyn Bellmer daughter of Mr. and Mrs. Herb Bellmer, Sr., 530 East Fourth street, entertained members of the N. S. club at her home Friday evening. A surprise party was given for Miss Gloria Flores, whose fourteenth birthday it was. Miss Flores was presented with a gift.

Members of the club are: Misses Dixie Gorrell, Sandra Ryan Sherry Edwards, Margie Cummings, Bonnie Baruer, Carolyn Bellmer, Gloria Flores and Shirley Bennett.

Other guests were: Bill Arnold, Bob Foster, James Foster, Jack Tope, Don Gray, Dickie Amos, Floyd Burton, Ralph Shultz and Teddy Van Nada. Refreshments were served and the evening was spent dancing.

A "slumber party" was given for the girls and breakfast was served by Mrs. Bellmer in the morning.

The Service Circle of the Sedalia Chapter No. 57, Order of the Eastern Star, will hold its regular monthly meeting at the home of Mrs. Frank Coffman, 1411 South Ohio avenue, Wednesday afternoon, promptly at 2:00 o'clock.

Assisting hostesses will be Mrs. J. E. Anderson, Mrs. G. W. McKelvey and Mrs. F. B. Piper and Miss May Highleyman.

Sixty-four members of the Sedalia Business and Professional Women's Club attended the social meeting Thursday night at "Erlyda", country home of Mrs. J. H. Frederich. Assisting hostesses were Mrs. Herbert Berlin, Mrs. J. C. Connor, Mrs. David Mahnken, Mrs. Earl Manley, Miss Mary Ellen Merrell, Miss Marguerite O'Connell, Mrs. Undrill Renshaw, Mrs. John Welch, Miss Maude Saunders, Mrs. O. L. Scott, Miss Mayme Shipley, Mrs. Everett Stumpf, Miss Georgia Sullivan, Mrs. Everett White, Mrs. Archie Wilson, Miss Juanita Young, Mrs. Everett Shaw and Mrs. A. L. Wilson.

The home was decorated throughout with cut flowers and games were played during the evening, with awards going to Mrs. William Bond, Mrs. Florence Elliott and Miss Hazel Palmer.

One of the main features of the evening was the judging of the hats worn by the women. The hats were designed by the owners each using their own ideas and no two women seemed to have the same idea. Every hat was distinctly different and clever. Awards went to Miss Grace Carter, who wore a large picture hat with black plumes and pink roses, which was her pride and joy back in 1910. She bought it in Chicago for $12.50. Mrs. Pearl Stuart's award was won with a hat decorated with a bird cage in which was a live baby chick which chirped loudly all evening. Miss Mary Shanks, the third winner, wore a miniature circus tent with animals and clowns. Miss Dorothy Burford wore a hat on which was a garden with gold fish in a bowl.

Refreshments were hot dogs, German potato salad and deviled eggs.

Miss Laura Dean Aldrich, daughter of Mr. and Mrs. Charley F. Aldrich, of Otterville and Mr. Gerald H. Smith, son of Mrs. Mildred Bartley, of Kansas City, were married at 1:00 o'clock Sunday afternoon April 11 at the home of Rev. H. A. Wood. Rev. Wood performed the double ring ceremony.

The bride wore a grey street dress with black accessories and a corsage of red carnations.

Mr. and Mrs. Reuben Rowles were the attendants.

The ceremony was followed by a reception at the home of the bride's parents after which the couple left for Kansas City on a short wedding trip. The groom, who has been employed at Burnett's grocery for more than two years. The couple will make their home in Otterville.

Mrs. J. Harold Osborne of Pueblo, Colo., spent Monday and Tuesday with her sisters, Mrs. J. G. Banks, 2005 East Brodadway and Mrs. W. P. Tucker, Route 4.

Mrs. Osborne who is regent of the Pueblo Chapter D. A. R. was en route to Washington, D. C. where she will attend the annual Continental Congress of the National Society, daughters of the American Revolution. She will also attend the Conference of Daughters of the American Colonists, Daughters of the Barons of Hunnemede, the Ladies of the Knights of the Bath, the Ladies of the Knights of the Garter, and the children of the American Revolution. She will serve on the national nominating committee of the D. A. R.

Other guests in the Banks home were Mrs. Banks' sister, Mrs. Dan Davis, Mr. and Mrs. Victor Bushmeyer of Boonville.

Mrs. Carl A. Walter of 510 East Fourth street entertained a number of children and mothers at a birthday party in honor of the second birthday of her son, Carl A. Walter Jr. The afternoon was spent in conversation and taking pictures after which refreshments of birthday cake and ice cream were served. Carl Jr., received many gifts.

Those present were: Carl Jr.'s grandmother, Mrs. J. W. Boatright and Mrs. Ed Walter, Mrs. George Riley and Patricia Ann; Mrs. John Hazel and Cary John; Mrs. James Cowan and Ronnie James; Mrs. B. H. Morrison and Cherryl Kay; Mrs. Herbert Berlin and Robert; Mrs. David Edwards, Russell and Janice Kay; Mrs. George Brown and Mary Jo; Mrs. Lawrence Prine, Butch and Virginia Kay; Anne Mae and Carl A. Walter Jr.; Mrs. Robert Farris, Mrs. O. F. Balke.

Jobe; Mrs. Sue Jobe, his daughter-in-law, who shares the home with him and cares for him; Miss Margaret Jobe, Mr. and Mrs. Alonzo Jobe and daughter of Kansas City, Miss Cytha Cantlon, Mr. and Mrs. Edgar Simmers and son William, of Clarksburg, Mr. and Mrs. Ralph Vaughan, of Mt. Pleasant community, and Mr. and Mrs. Truman Simmer and two small sons (these two being great grandchildren) of Pisgah, Mo.

Mr. Jobe was presented with four birthday cakes. A contributed dinner was served. Mr. Jobe is enjoying reasonably good health, goes about his home and garden and attends church when weather permits. His friends and family wish him many more happy birthdays.

Mr. and Mrs. Frank Maloney of Syracuse celebrated with friends and relatives, their 55th wedding anniversary Tuesday April 13. It was also Mrs. Maloney's 75th birthday.

Mr. and Mrs. Maloney have five children all of whom were present on Sunday except Lee Maloney of the state of California. The other children are: Mrs. Henry Byrd, of Warrensburg, Mrs. Walter Klein, Harry Maloney and Lloyd Maloney of Syracuse.

Friends who were present on Tuesday were: Mrs. Lydith Putnam of Syracuse, Miss Jessie Putnam of Sedalia and Mrs. Clarence Hardy from the state of California.

Mrs William McGee, 1618 South Ingram avenue, entertained with a miscellaneous shower Thursday evening at her home in honor of Miss Virginia Glenn, who will be married on May 2 to Nelson (Bud) Hinken.

The color scheme of pink and white was carried out in the decorations with arrangements of pink and white, snapdragons, sweetpeas, roses and carnations. These flowers fromed the centerpiece for the dining table and on the buffet was a crystal bowl filled with flowers on either side of which were pink lighted tapers in crystal holders.

From the chandelier was suspended a pink springling can with pink and white streamers from the spout representing an April shower. The streamers attached to the gifts on the lace covered dining table.

Games were played during the evening with awards going to Mrs. Bob Fowler, Miss Doris Nelson, Mrs. Carl Meyer, Mrs. Cecil Glenn, Mrs. Raymond Kurtz and Mrs. Paul Dey.

The bride was presented with a corsage of white carnations by the hostess. Mrs. McGee also gave corsages of red roses to Mrs. V. P. Glenn, mother of the bride-to-be and Mrs. W. E. Hinken, mother of the prospective bridegroom.

Refreshments in keeping with the pink and white color scheme were served to the following guests: Miss Glenn, her mother, Mrs. V. P. Glenn, Mrs. W. E. Hinken, Mrs. J. H. Brooks, Miss Maxine Kroencke, Mrs. Paul Dey, Mrs. Cecil Glenn, Miss Margie Lee Glenn, Mrs. Clarence Steels, Mrs George Meyer, Mrs. Truman Huff, Mrs. Walter Burgenger, Mrs. Carl Meyer, Mrs. Raymond Kurtz and Gene, Mrs. Cord Hinken, Mrs Charles Tayes, Miss Elaine Nelson Miss Doris Nelson, Miss Martha Hinken, Miss Dean Hinken, Mrs Carl Urban, Mrs. Dollie McGee Mrs. Fred Meyer and Mrs. Bob Fowler. Favors were pink and white baskets filled with mints.

Those who sent gifts but were unable to attend were Mrs. Leonard Fall, Misses Ruth and Bernice Fall, Mrs. A. L. Wilson, Mrs. Ernest Madorin, Miss Mary Ann Madorin, Miss Dorothy Swope, Mrs. Edward Kurtz, Mrs. James Gault, Mrs. Emmett Cramer, Mrs. C. T. McGee, Miss Grace Farley and Miss Helen Farley.

Arrest On Child's Tip-Off

J. H. Bugg Held In Kidnap Of A Missouri Officer

PORTLAND, Ore., April 17—(AP)—A 12-year-old girl's fondness for a radio program led Friday to the Hillsboro, Ore., Friday morning after a curious and courageous small girl's persistence led to a police tip-off.

The FBI announced that John Harvey Bugg, 29, was arrested hiding under a baby's crib at Hillsboro, Ore., this morning, after a curious and courageous small girl's persistence led to a police tip-off.

Special FBI Agent Howard I. Bobbit said Bugg has been sought ever since the Dade county, Mo., sheriff was kidnapped, robbed, and left tied to an Oklahoma telephone pole in November of 1945.

The letters "L-O-V-E," tattooed on the fingers of Bugg's left hand, combined with the curiosity of twelve-year-old Pauline Virgin as to why her riding teacher's cut fingers never seemed to heal up, led to the arrest.

The man arrested Friday had been living since August at the Oregon coastal towns of Gearhart and Seaside, working in riding academies under the name of Jim Williams. Constantly, he wore tape on his left fingers. He had a slight limp.

Pauline, the radio-fan daughter of Mr. and Mrs. Le Roy Virgin, of Gearhart, heard a description of Bugg on a radio program (Gangbusters), which described him as limping and having the letters "love" tatooed on his left fingers.

Was "Scared of Him"

She promptly went back to the riding academy and challenged "cowboy Jim" about why he kept his fingers taped. "He was nasty," she told reporters afterward. "I was scared of him after that."

She told her 14-year-old cousin, Navarre Smith. Some adults were told, too, but they all scoffed at "childish imaginations."

Eventually, after most of Gerhart's children had been buzzing for days with the matter, Navarre Smith stopped a policeman on the small town street, and asked "where does the FBI live?"

Told the story, the policeman notified the FBI. Today FBI officials arrested the erstwhile riding teacher.

Bugg was indicted by a Tulsa, Okla., grand jury on a charge of kidnapping and auto theft. The Dade county, Mo., sheriff was forcibly disarmed after making an arrest, and forced to drive in a stolen car from Seminole, Okla., to Kellyville, Okla., Nov. 26, 1945. At Kellyville he was robbed and left tied to a telephone pole.

The kidnaped officer was Hugh P. Wilkerson, who still is sheriff of Dade county.

He was kidnaped Nov. 29, 1945 after he had arrested Bugg in a Greenfield, Mo., barbershop for Los Angeles, Calif., authorities on a forgery charge. Enroute to the county jail Bugg disarmed the officer and forced him to drive the prisoner's car toward Oklahoma.

Sheriff Wilkerson could not be reached immediately for comment.

Broadway PTA Has Open House

The Broadway Parent Teacher Association had Dad's Night Friday evening at the school, with Philip M. McLaughlin, chairman, in charge of the program.

The business meeting was presided over by Mrs. Leonard Williams, who read the resignation of Mrs. Philip McLaughlin as first vice president. The resignation was accepted and Mrs. L. W. Duly was elected to fill the office.

Mrs. Williams then turned the meeting over to Mr. McLaughlin.

Rev. J. E. Merrick gave the devotional.

Program Presented

The following program was then presented by the pupils of the school. Two numbers, "Ballet Music" from Rosamunde by Franz Schubert and "With Majesty Incarnate" by J. S. Bach, were played by the orchestra with Albert Fox as accompanist. Six songs were sung by the children of the two second grades taught by Miss Minnie Murphy and Mrs. Leota Ray. Pupils of the third grade taught by Miss Nell Longan gave five choral readings. The school chorus then sang a group of four songs, with Patricia Robinson as the accompanist. The chorus was under the direction of Miss Florence Hert.

Open house was held before and after the meeting to give the dads an opportunity to see the work of the children, which was attractively displayed in the various rooms throughout the building.

Room awards, two potted plants, went to the room taught by Miss Longan downstairs and Miss Hert upstairs.

U. S. Olympic Hopes Get a Big Boost

2 Record Breaking Performances in Kansas Relays

By Skipper Patrick

LAWRENCE, Kas., April 17—(AP) — Michigan's mighty shotputter, Charles Fonville, and Baldwin-Wallace's hurdler, Harrison Dillard, gave United States Olympic hopes a healthy boost with world-record-bettering performances at the Kansas Relays today.

Fonville pushed the 16-pound iron 58-feet ¼ inch to top the recognized world's record of 57-feet 1-inch set by the former Louisiana State university giant, Jack Torrance, at Oslo, Norway, in 1934.

Dillard won his fifty-second competitive race as he skimmed the 120-yard high hurdles in 13.6 seconds, a full tenth second under the world and intercollegiate mark established by Forrest (Spec) Towns in 1936 and equalled by Fred Wolcott of Rice Institute in 1941.

Fonville, streamlined 195-pound pre-dental student, let go his record toss in his second preliminary try when only a few hundred fans were in the stand. He did not try again in the afternoon finals, but each of his four qualifying puts topped the Kansas Relay mark of 52-feet 1½ inches by Elmer Hackney, Kansas State in 1939.

Referee Frank Potts, University of Colorado coach, announced that the performances of both Fonville and Dillard would be recognized as Kansas Relays records and that application for recognition as world's standards also will be made.

Dillard won the high hurdles without being pushed. He broke fast and had a good 10-yard advantage over runner-up Clyde (Smackover) Scott of the University of Arkansas at the finish.

The ebony streak had served warning in the qualifying heats that he was out for a record. He won the trials in 14 seconds flat, two tenths of a second under the meet mark. Two timers caught him at 13.9 seconds and another at 13.8.

Few of the estimated 10,000 shirt-sleeved fans were surprised when Dillard's time was announced.

Charles Baker, of the University of Arkansas, competing unattached, won the decathlon event with 6,730 points. In sixth place at the end of the first five events yesterday, Baker came through in spectacular fashion today to nose out Irvin (Moon) Mondschein, New York university's three-time National AAU champion, who placed second with 6667 points.

Four other meet records were established as the relays came up with one of its strongest fields in history.

The University of Wisconsin two-mile relay team was clocked at 7:44.7 in breaking the old meet record of 7:45.7 set by Kansas State in 1935. Don Gehrmann anchored his Badger teammates with a 1:52.8 quarter that outdistanced second place Missouri.

Dave Bolen, University of Colorado graduate student competing unattached, ran the 400 meter hurdles in 53 seconds flat, two and four-tenths seconds under the old record by Herman Nelson, Oklahoma, 12 years ago. It was Bolen's first competitive hurdles race. He got considerable pushing from Richard Ault, Missouri, who placed second.

East Texas State cracked the college sprint medley record in mark of 3:47.2 was set by Abilene a spirited 3:31 trick. The former Christian last year.

Texas A&M came up with the sixth meet record in the university mile relay, final event of the day, as Don Corden, Erwin Bilderback, Ray Holbrook and Art Harnden ripped off the distance in 3:15 . The former record of 3.16.1 was set by the Aggies' foremost rival, Texas university, in 1935. The University of Missouri was second and Notre Dame, third.

The Texas Longhorns successfully defended their relay titles in the quarter-mile and distance medley, but ran second to Missouri in the university half mile baton chase.

Charlie Parker had a twenty-yard handicap in the anchor post of the half-mile relay and was unable to make up the distance against Missouri's Harry Guth.

Parker scored an individual victory in the 100-yard dash, taking the event in 9.5 seconds. Maurice Fuquay of Oklahoma A&M gave him a good chase to the tape.

Forrest Efaw, the old-time steeple-chaser who once did his running for Oklahoma A&M won the special A.A.U. 3,000 meter event today in 9:53.2, finishing yards ahead of runner-up James Urguhart, Madison, Wis., Forest's brother, Paul, placed third.

Dwight Eddleman, University of Illinois' Big Nine and N.C.A.A. high jump champion, won his specialty today with a leap of 6 feet 5⅝ inches. Ed Taylor of Western Michigan, and Tom Scofield, Kansas' Big Seven titlist, each got off jumps of 6 feet 3¾ inches.

Pirates Whitewash Detroit Tigers 6-0

PITTSBURGH, April 17—(AP)—The Pittsburgh Pirates whitewashed the Detroit Tigers 6 to 0 today behind the five-hit pitching of Elmer Singleton in an interleague exhibition game.

Romanus Basgall homered in the seventh and Ralph Kiner hit for the circuit in the eighth for the winners.

McMillen Blanks Kansas on 1 Hit

COLUMBIA, Mo., April 17—(AP)—The University of Missouri's Don McMillen held Kansas to one hit today as the Tigers shut-out the Jayhawkers, 1 to 0, to take the two-game series.

McMillen had no trouble until the ninth when an error and two walks filled the bases with one out, but he started the double play which ended the game. The Tigers won the first yesterday, 10 to 5.

The score by innings:

Kansas	000	000	000—0-1-2
Missouri	000	000	01x—1-6-1

To Roll for Mo Pac League Championship

The Reclaim Plant, by taking two games from the Clerks Thursday night, copped first place in the second half of the Missouri Pacific Bowling league. This gives them the right to meet the Machinist Apprentices, first half winners, in a three-game match for the league championship to be rolled Thursday night at 9:00 o'clock.

The Coach Shop nosed out the Machinists for second place by making a clean sweep of their series with the Carmen.

John Miers, of the Pipe Fitters, carried off high individual scoring honors, both for high game and high series when he turned in scores of 156, 190 and 212 for a total of 558.

High team honors for the series went to the Reclaim Plant with a 2266 count, followed by the Pipe Fitters with a 2180 score. High team honors went to the Reclaim Plant with a score of 803. The Pipe Fitters were runners-up with 785.

Football Exhibition At Smithton

Large Crowd at Dedication of 6-Man Gridiron

Six-man football received its official introduction to Pettis county Friday afternoon when several hundred people turned out to see an exhibition game between two squads of the Smithton high school. The occasion was the dedication of the Smithton gridiron to Dr. John R. Ellison, whose backing was the major factor in introducing the game to the school program.

The teams were chosen by Coach Bob Devine and were evenly matched to fully illustrate the fundamentals of the six-man game. At the end of the game, which was interesting from the spectator's standpoint and has all the fun of the 11-man game for the players, the Bulldogs, captained by C. Summers had edged the Tigers, led by J. Bohanon, 20 to 19. Team members were: Bulldogs—Summers and Hume, halfbacks; Young, quarterback; Siegel, center, and Thomas and Homan, ends. Tigers—Green and Birdson, halfbacks; Martin, quarterback; Griffin, center, and Williams and Bohanon, ends. Substitutes were Cranfield and Caton for the Bulldogs and V. Smith and M. Smith for the Tigers.

Officials for the game were: Charles Van Dyke and Bob Devine, referees; George Griffin, III, head linesman; Jimmie Monsees and R. D. Kahrs, assistant linesmen; Glenn Hoerman, scorekeeper and Jack Blaylock, timekeeper.

Preceding the game, a dedication service was held consisting of "The Star Spangled Banner," by the school band; introductory by Supt. B. B. Ihrig; dedication service by Paul G. Benson; speech by Rev. E. L. Knight, and prayer led by Rev. E. F. Dillon. Following the program Coach Devine explained the fundamentals of the game and the tactics employed by the teams in order to acquaint the crowd with the action which they were to see.

The six-man game was organized in Nebraska in 1935 and now thousands of high schools, large and small, participate in the sport. Although differing in some points from the 11-man game, it is fundamentally the same game, enabling players to convert to the larger game with a minimum of confusion.

Six-man football is a perfect game for smaller high schools to add to their program. The field, which is but 80 yards long and 40 yards wide, is ideally suited for schools with limited space. Other rules have been changed to speed up the game and to stop some of the offensive tacts which teams might take up. For instance—a rule requires a free pass to be made in the backfield before the ball can be advanced, eliminating the quarterback sneak, and another requires the offensive team to have at least three men on the line, preventing large gains.

Instead of the conventional 10 yards to be gained on four downs, the yardage has been stepped up to 15 yards on four downs and also unlike the 11-man game, all players are eligible to receive a pass.

Several of the smaller high schools in this section of the state have indicated their interest in the game, and Coach Devine is considering another exhibition game for those schools interested. Tate Page, football coach at C.M.S.C., intends to start the six-man game at the Warrensburg College high school in order to prompt organization of teams throughout the state. Green Ridge high school also has shown an interest in the game and may form a team.

M.U. Gridsters End Spring Training

COLUMBIA, Mo., April 17—(AP)—The University of Missouri football squad wound up its spring practice today with a 35-14 victory over an alumni team.

Nearly 4,000 persons saw the game. The old-timers earned one touchdown, scored by Jim Brooksbank on a lateral from Leonard Brown. Their other touchdown came through the varsity's charity as a path was left for a 65-yard scoring maneuver by Bob Steuber and Harry Ice in two plays.

Sport Scraps

By D. KELLY SCRUTON

THERE are to be "Knot Hole" gangs in Sedalia this year with members being issued special passes to baseball games. There will be a "gang" for the games to be played by the Sedalia Athletics and a "gang" for the games being played by the Blues in Northeast Sedalia.

The Northeast Athletic Club which sponsors the Blues are handling the "gang" for the Housel Park ball games. Already the Club has a program for the youth of Northeast Sedalia well underway which takes in more than just baseball.

Underprivileged children are being sponsored by the Sedalia Optimist Club for the "gang" at Liberty Park. The Optimist club also sponsors the "Junior G-Men" and they will be included into the "Knot Hole Gang" it was announced.

Plans being made by the Optimist are such they are doing their share to help put Sedalia on the baseball map this season. 200-children will form their club each to carry a special pass for entrance to all Athletic home games and ready to root and howl for the home towners.

With local teams getting the backing from Sedalia's truest fans, and from business men who have given and helped so much, how can Sedalia miss in having it's dream club?

Boys and girls alike must be given the opportunity to see baseball, they must get the chance of going to a ball game without having to "hang around the gate" to be told to "go on in and get out of the way". Giving them an opportunity to see baseball on their own will create a better spirit in the future baseball fan of tomorrow.

I congratulate both the Optimist and the Northeast Athletic Club in their projects. They are really doing something worthwhile.

THE time of year has arrived. Baseball training has been completed and Monday the season gets into full swing. Again I pick the Cardinals, and reluctantly picked the Browns. But remember I hit both of 'em one year when everybody in the United States didn't give the Browns an outside chance.

The season officially opens Monday—Why because Harry S. Truman, Missouri's own President of the United States hurls the first ball at Washington, D. C., when the Senators play the World Champion New York Yankees—And because Governor Phil M. Donnelly of Missouri will participate in the opener at St. Louis between the Cardinals and the Cincy Reds.

At St. Louis it is going to be a big affair. The St. Louis University Billikens, National Basketball Champions, will be on hand to be introduced in their role as champions prior to the game. There will be two bands, marching units and color guards will be featured in the colorful pre-game activities.

It's going to be a big day in St. Louis.

I have missed something this spring. Guess it has been too much politics, but my good friend and advisor on baseball picking, Dick Rohn, hasn't come through yet. It will be interesting to get a report on what's going to happen after the season is opened a week.

Dick will pick 'em and I believe he's going to show up some of the Big Time sports writers who have been "looking 'em over" in spring training.

OH yes, I almost forgot. Recently I reported on a gin rummy game down at my cabin on the Lake of the Ozarks where a well known and prominent employee of the Missouri Pacific fell victim of some playing cards I had received from the Missouri-Kansas-Texas railroad.

Just the other day I was delivered another "double-deck" of M-K-T playing cards, compliments of M. R. Cring, assistant to the President of the Missouri-Kansas-Texas Lines. The railroad Public Relations officer at St. Louis. Then I received a letter from Mr. Cring in which he stated, "With the thought that these cards are now a little worse for wear, (referring to the gin game which was written up March 28) or that your adversary threw them away, I am sending you under separate cover, a new set. x x x x x x x x and I hope you have as much luck with this new set as you had with the old cards."

Thanks, Mr. Cring.

Chesapeake Stakes Won by Citation

HAVRE DE GRACE, Md., April 17—(AP)—Showing that it was all a big mistake when he was beaten last Monday, Calumet farm's Citation came back with a vengeance today to decisively whip three other Kentucky Derby candidates in the Chesapeake stakes.

The Calumet three-year-old ace, winter book Derby favorite who lost in a stunning upset to Mrs. Helen Sagner's Saggy here in the Chesapeake trial Monday, trimmed Sylvester W. Labrot's Bovard by four and a half lengths. Mrs. James V. Stewart's Dr. Almca was third by another five lengths, while Saggy was a badly beaten last, 15½ lengths away.

Citation paid just $2.40 to win, and $2.20 to place, while Bovard's place price also was $2.20.

Cincy Reds Outslug Syracuse To Win 10-5

CINCINNATI, April 17—(AP)—The Cincinnati Reds, making their first appearance of the year at Crosley Field, outslugged Syracuse, 10-5, today for the third victory over their International League farm club in as many days.

Johnny Vander Meer, the Cincinnati starter, pitched six innings and gave up nine hits.

Dodgers 5-2 Victory Over Champ Yanks

BROOKLYN, April 17—(AP)—Limiting the New York Yankees to two hits, a trio of Brooklyn hurlers pitched the Dodgers to a 5-2 victory over the world champions today at Ebbets Field. The spring exhibition series between last year's world series rivals now stands at one victory apiece.

Hugh Casey, Preacher Roe and Rex Barney were the Dodgers flingers. Ed Lopat and Joe Page, Yankee lefthanders, were combed for eight hits and all of the Dodger runs. Randy Gumpert was the third Yankee hurler.

Billy Cox, with a double and two singles, led the Dodgers' 10-hit attack. Carl Furillo slammed a home run for Brooklyn and his teammate, Pee Wee Reese, had a perfect day with two hits and two walks.

Knockdown Winner of Excelsior Handicap

NEW YORK, April 17—(AP)—Knockdown, a disappointment in the 1946 Kentucky Derby, bounced back into the nation's turf picture today.

Taking the lead at the start and holding it all the way the Maine Chance farm's five-year-old paid $55.10 for $2 in winning the $25,000 added Excelsior handicap at Jamaica before 50,583.

The Discovery-Bride Elect horse finished half a length ahead of the 8-to-5 favorite, Double Jay. Stymie, the world's leading money winner who was making his 1948 debut, finished third, three lengths further back.

Knockdown paid $16.30 to place and $7.30 to show. Double Jay returned $3.30 and $2.40. The Stymie entry paid $3.00 to show. Time for the mile and one-sixteenth was 1:46.

Pesky's Long Drive Wins For Red Sox

BOSTON, April 17—(AP)—Little Johnny Pesky lashed a long drive into right field with one out and the bases loaded in the ninth to give the Boston Red Sox a 2-1 win and a three games to one city series lead over the Braves today before a chilled 16,341 crowd at Fenway park.

Pesky's game-winning clout was at the expense of Johnny Beazley, who took over for Bill Voiselle in the sixth inning.

Joe Medwick Will Play With Cardinals

ST. LOUIS, April 17—(AP)—Joe Medwick, veteran outfielder, will play with the St. Louis Cardinals again this year. Given his release at the end of last season, Medwick, who will be used mainly as a substitute and pinch hitter, signed a 1948 contract tonight.

He batted .307 in 75 games last year.

Washington Senators Stopped By Baltimore

WASHINGTON, April 17—(AP)—Johnny Wittig stopped Washington on six hits in an exhibition game here today as Baltimore's International Leaguers defeated the Senators 6-3. The winning Orioles battered Milo Candini, Ray Scarborough and Forrest Thompson for 15 hits.

3:00 O'Clock Practice For Chiefs

The Ban Johnson Chiefs will practice this afternoon at 3:00 o'clock at Liberty park.

Central Mo. League Starts Play May 2

Boonville and Sedalia Blues Fill Vacancies

The Central Missouri baseball league, reorganized for 1948 with 8 teams participating, will open its season May 2. Two teams have been added to replace vacancies caused by Windsor and Iberia. The Sedalia Blues fill one spot and the Boonville club will fill the other.

J. H. Tucker again heads the league, serving as president and treasurer this year. Dr. M. S. Otten, Versailles, is vice-president and Charles Johnson, Tipton, is secretary.

The season's openers will find Smithton playing the Sedalia Blues at Sedalia; Boonville at Jefferson City; California at Eldon and Tipton at Versailles. Each team will play a 14-game schedule with the playoff system used for the teams placing in the first division. The first and third teams will meet and the second place team will meet the fourth in a 2 out of 3 series. Winners will play for the championship.

Postponed games, due to rain or other causes will be played off at a time designated by the president. If an arbitration committee so directs, any postponed games having any bearing on the standings of the league must be played.

By-laws for the league this season are much the same as in previous seasons with each team allowed 18 men. In order to curb "importing" pitchers, after the first roster has been turned in, pitchers must be in uniform and on the bench at least two playing dates after his name has been added to the team's roster before he may play.

Teams or individuals detected gambling on games or intentionally trying to throw a game will be subject to expulsion from the league.

The regular league activity will wind up August 1.

A's to Practice This Morning

The Sedalia Athletics take to the Liberty park diamond for another practice session today starting at 9 o'clock and lasting until noon. Stiff muscles and sore pitching arms are up to the seasonal form now and Duke Sullivan, Athletic manager, is expected to send his charges through some heavy drills.

The squad is rounding into good playing condition for the 1948 local baseball opener May 2 against the Police Academy team from Kansas City. Starting lineups haven't entered into the Athletic picture since tryouts are still being held. Sullivan has made known throughout the training sessions that there are no closed positions on the club and any player who thinks he has the ability for a berth on the team still has time to make the team. It is possible that Sullivan may have his mind made up on several of his boys for a starting spot, but anything resembling a starting lineup probably won't be announced until just before the opener.

Games listed for here during the month of May have been filled with the exception of May 16. The Giants team from St. Louis with the popular "Punk" Drake will be here May 30. Memorial Day a strong semi-pro team managed by Sol Kohrs from St. Louis visits Sedalia for an afternoon-night twin bill.

Cards Beat Browns In Fifteenth 8-6

ST. LOUIS, April 17—(AP)—Rookie Nippy Jones pounded out a two-run homer in the top of the fifteenth inning to hand the St. Louis Cardinals the first victory—8 to 6—in the two-game spring training series with the St. Louis Browns.

The Redbirds led at one time 6 to 1. A ninth inning double by Bob Dillinger, good for two runs, and a single by Chuck Stevens, scoring Dillinger, tied the game. The Browns had picked up two runs in the eighth.

Byran Stephens, who entered the game at the start of the tenth was the loser after pitching five good frames. Al Papai was the winning hurler. He relieved Jerry Staley in the Brownies' ninth inning rally. Over 14,000 paid fans watched the game and nearly all of them stuck it out until the rousing finish.

"Salty" Schumaker Training With McAlester Club

James "Salty" Schumaker, son of Mr. and Mrs. William Schumaker, 527 North Grand avenue, has written his parents that he is doing satisfactory in training with the McAlester, Okla., ball club. The club is a farm team of the New York Yankees.

"Salty" went to St. Louis with the Sedalia Junior Legion team when they played for the Missouri state championship in 1945. Last season he played with the Slater Ban Johnson team, which won the Missouri state title.

White Sox Shut Cubs Out 1-0

CHICAGO, April 17—(AP)—The Chicago White Sox loaded the bases in the ninth with none out and Jack Wallaesa scored from second on a double play to give the southsiders a 1-0 win over the Chicago Cubs today.

The triumph, before 13,300 fans in Comiskey park, moved the Sox ahead 5-4 in the spring series with their cross town rivals.

Orval Grove held the Cubs to six hits, half of them by Phil Cavarretta.

Game at Housel Park Today

The Warrensburg Merchants will supply the opposition for the Sedalia Blues this afternoon on the Housel Park diamond at 2:30 o'clock.

The Warrensburg club is composed of young players from Warrensburg, Knob Noster and Holden.

Manager Seigel stated late Friday night that he will use his entire squad in the game. All positions on the team are still open and will be until Wednesday night. Following that date the starting line-up will be picked for the opening league game May 2.

Writers Pick Cardinals And Yankees

Boston Teams Rated Second in Both Leagues

By Joe Reichler

NEW YORK, April 17—(AP)—The world champion New York Yankees and St. Louis Cardinals will meet in the world series next October, according to the nation's top baseball writers—but only after a closely-waged battle in both the American and National leagues.

The Yanks were given a slight vote edge by the 115 scribes who took part in the annual Associated Press poll. The defending American League champions received 59 first place ballots to 56 for Boston. On points, the Bronx Bombers nipped the Bosox, 975 to 966.

In the National, the votes were more widely distributed. The Redbirds received 48 first place votes to 42 for the runner-up Boston Braves. Their point total was 914 to 888 for the Braves.

The biggest surprise was the apparent lack of enthusiasm by the writers for the Dodgers' chances to retain their National League championship. Only 12 thought the Dodgers would repeat while four picked them to finish as far down as fifth place. However, the Brooks got enough second and third place votes to edge out the New York Giants for third 718 points to 661. The Giants also got a surprising dozen first place nominations.

The Cincinnati Reds were the only other club to receive a first place vote. One writer picked them to win the flag. On the other hand, the Reds also received one last place vote. The only club to get at least one vote for each of the eight positions, the Reds were figured to snare fifth place by a wide margin over the Pittsburgh Pirates, 443 to 326.

The Chicago Cubs won the battle for the National League cellar, getting only 207 votes to 213 for the Philadelphia Phillies. Neither got a first division vote.

No American League team, other than the Yankees and Red Sox, was selected to win the pennant. Although Cleveland received nine second place votes to five for Detroit, the Tigers nipped the Indians for third place 635 votes to 627 for Cleveland.

Triangular Meet To Washington U.

CAPE GIRARDEAU, Mo., April 17—(AP)—Washington university gathered 75 1/3 points, largely on second and third places, to win a triangular collegiate track meet here today. Southeast Missouri college scored 45 1/3 while the Rolla School of Mines was third with 42 1/3.

Cape Girardeau captured six firsts, including the mile, and 880-yard run by Ralph Corse and 440 and 220 by Lee Reid. Rolla runners were first in five events and Washington U. in four.

The Bears from St. Louis took 10 second place results and nine thirds to boost their point total.

Corse and Reid led in individual scoring with 11¼ points each.

Columbia Country Club Golf Tourney

The Columbia Country club is sponsoring a pro-amateur golf tournament on Sunday, May 9.

This is an invitational tournament and a number of local golfers have been invited to attend.

Time: 8:30 P. M. Wednesday.
Place: National Guard Armory.

Promoter Gus Karras announced Saturday he is taking another try at wrestling in Sedalia and has scheduled matches for this coming Wednesday night at the National Guard Armory under the sponsorship of Post No. 16, American Legion. He has not decided whether to continue weekly or every-other-week.

Falling off of attendance at the last matches two weeks ago called for a cancellation of the show last week. However, wrestlers desired to continue coming to Sedalia and another try was decided upon.

Ken Kenneth of Auckland, New Zealand, who has been appearing on the east coast and came to the middlewest recently prior to returning to his native country, is on the card for this week. Kenneth is to meet Barney Bernard of Kansas City, in the opening event. Wrestling fans will be provided with some real entertainment in this match.

The main event will be a team tag match bringing together Johnny Marrs, Nashville, Tenn., and Lou Newman of Quebec, Canada, meeting the team of Ray Vilmer, St. Louis, and Sonny Meyers, of St. Joseph. This match is one which should be full of excitement. Newman and Meyers are well known here while it is the first appearance of Marrs in the Sedalia ring.

Karras said he would promise plenty of action in the team match and an exceptionally good match in the opener.

Sammy Feeback is scheduled to referee.

Teams Want to Schedule Games

This is the first of a series of pages, sponsored by these Sedalia business firms, designed to better acquaint you with the players on Sedalia's 1948 Champion Athletic Baseball Team.

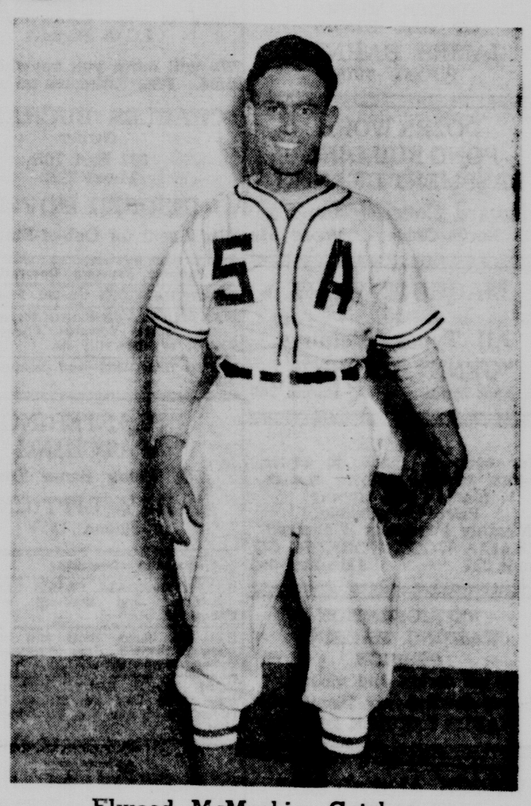

Duke Sullivan, Manager-Catcher

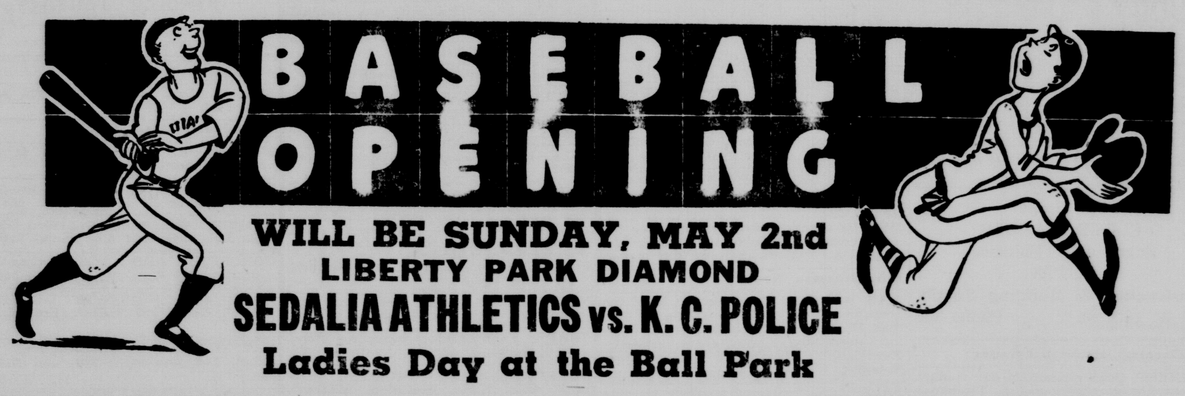

Duke Sullivan, manager of the Athletics, is new to Sedalia baseball circles, however his showmanship on the field and his ability as a baseball playing manager has already won the approval of his fellow players. Their confidence in the 'Duke' will surely make the Athletics a winner.

Sullivan performed three years for the Junior Legion at Salina, Kansas as a catcher, his present position. He played four years of Ban Johnson League Ball. He caught for the Ban Johnson League State Championship team at Trenton, Missouri. He was with the Fairbury, Nebraska National Ban Johnson Champions, one of his teammates being Doyle Lade who is now with the major leagues. Duke Sullivan in 1938-1939 and 1940 caught for the Big-Six Tigers of Missouri University at Columbia. In 1941 he signed a pro-contract with the Oklahoma City Indians in the Texas League. He played in the Western Association and was to report to Milwaukee of the American Association in 1942 when Uncle Sam called. Duke says this was one of his toughest breaks and why shouldn't it be. He joined the Marines in October of 1941 and was discharged in December of 1944. He returned to Missouri U. in 1946 to act as assistant baseball coach. Duke Sullivan throws and bats right-handed. Sedalia fans will know plenty about this fellow before the coming season is over.

Elwood McMackin, Catcher

Elwood McMackin, catcher for the Athletics, is well known to baseball fans all over the Central Missouri area. A local boy 'Mac' performed with the Junior Legion here the first year it was organized. In 1941 Elwood played with the Sedalia Ramblers of the Ban Johnson League. In 1942 he traveled with the Marshall-Slater All Stars in this state. McMackin, as well as all young men his age answered the call to colors in 1943. He was discharged from the service December 7, 1945. The following year he did duty behind the plate for the Ramblers. Last season as many fans will recall 'Mac' did stellar duty as a catcher for the Merchants. Just before donning his uniform for the newly organized Athletics Elwood tried out with a Mississippi Class 'B' team. McMackin is young and a plenty fast ball player. His spirit and chatter behind the plate will prove valuable to the Athletics. 'Mac' throws and bats right handed.

The experts go overboard "This time it's Hudson

the only car you step down into!"

AN auto-wise Detroit editor writes, "Hudson . . . will still be in a sellers' market after the buyers' market returns!" A Cleveland motor-car writer, "The public is in for a thrill!" From a San Francisco auto editor's column, "Hudson has really hit the jackpot!"

And so it goes—right around the nation! Men who have "seen everything" in automobiles go for the New Hudson.

It is the only American-built motor car you step *down* into when entering, not *up* on! This new development brings you sensational advantages—among them, newly streamlined beauty that would otherwise be impractical.

This new kind of motor car is only five feet from ground to top, yet by stepping down, you get *more* head room and *roomier* seats than in any other mass-produced car built today—and there's good road clearance, too!

Because you step down, Hudson's new, all steel Monobilt body-and-frame* completely encircles you, even outside the rear wheels, with a rugged, box-steel foundation frame—and this brings you a new measure of added safety.

You ride within this frame—cradled between axles—not on top of a frame as in the past. Hudson's new, lower center of gravity and rugged basic structure give this car delightful roadability—a hug-the-road way of going, especially on curves, that is so safe, so serene, so smooth, it is unlike anything you've known before!

See the new motor car the experts cheer. The nearest Hudson dealer will show it to you now! Hudson Motor Car Company, Detroit 14. *Trade-mark and patents pending

Convict Best of Treason

Verdict From Federal Jury Is Reached On 52nd Birthday

BOSTON, April 17—(AP)—Robert Henry Best, wartime commentator on the German short-wave radio, was convicted of treason Friday—his 52nd birthday.

The 12-man federal jury deliberated only three hours and 40 minutes.

Best, former American newsman in Europe, was pale and tense as he stood in the courtroom. He held his hands behind him and did not move as the jury foreman announced "guilty."

Best's sister, Louise, and a brother, A. H. Best, sat a few feet away.

Best, who was born in Sumter, S. C., the son of a Methodist minister, testified in the final stages of the 13-day trial he made about 300 broadcasts over short-wave radio from Germany during the war.

"Fight On Bolshesvism"

He claimed his purpose was to fight Bolshevism and to bring about a negotiated peace.

The government prosecutor — Tom De Wolfe—termed the partially bald, blue-eyed newsman a "voluble, garrulous traitor."

Judge Francis J. W. Ford deferred sentence indefinitely.

Best was the second American radio commentator to be convicted of treason within the year in this same court within the shadow of Faneuil hall—"the Cradle of Liberty."

Douglas Chandler of Baltimore was convicted last June and given a life sentence.

Quirino Is Given Oath

MANILA, Saturday, April 18—(AP)—Elpidio Quirino took the oath Friday as the second president of the Independent Philippines.

Immediately thereafter he went into a closed session with the State Council to plan a state funeral for his chief and friend, Manuel Roxas, who died Thursday night of a heart ailment.

Earlier in a brief conference with reporters he had pledged himself to carry on the program of Roxas, who made firm friendship with the United States the foundation stone of his foreign policy.

The oath was administered to Quirino, who had been vice president and foreign secretary, in Malcanan palace, where the body of Roxas lay in state. He took the oath from acting Chief Justice Ricardo Paras of the supreme court.

A 21-gun salute greeted the vice-president as he stepped from a cutter which had brought him to the capital from his interrupted tour of the central Philippines.

Although suffering from high blood pressure, Quirino appeared in good health as he waved to the crowd. He is under the close supervision of his physician, Dr. John Adamson.

Fire Destroys Four Homes

WALKER, Mo., April 17—(AP)—Four homes were destroyed by a fire which threatened the one-block business district of Walker late Friday.

A fifth residence was saved and the fire brought under control by a pumper truck from Nevada, Mo., seven miles southeast of here.

The blaze started in the home of Charles Bowen, who suffered burns on the face and hands in the explosion of a kerosene stove. All the contents of the Bowen home burned.

Nearly all of the town's 300 residents carried furniture and clothing from the other homes, and fought the fire with water by bucket brigades.

A strong northwest wind fanned the blaze, which lasted two hours. While fire-fighters concentrated on saving the fourth home in the block where the fire started, flying sparks ignited another three blocks away. It burned to the ground.

Bowen was the only person injured. Others made homeless were the families of Dwight Martin, King Conway and Ivison Underwood.

Mobley Heads Commission

JEFFERSON CITY, April 17—(AP)—The state Resources and Development Commission raised H. H. "Joe" Mobley of Jefferson City Friday from acting director to director.

He has been acting head of the agency since Jan. 1 when Hugh Denney resigned to become a Current river resort operator.

Moberly, 36, is an engineer. Formerly he was with the state highway department 13 years and the army engineers. For two and a half years he was in the air corps at the Knob Noster army airfield.

With the commission since January, 1946, he was field representative for a year, then administrative assistant under Denney.

Commission Chairman George D. Clayton, Jr., of Hannibal announced the appointment.

Gordon H. Smith, 34, of Monett, was appointed field representative for central Missouri with headquarters at Rolla. Formerly principal of Monett schools, he is now director of activities at Monett junior college. He was a Red Cross field director during the war.
